GSA Scheduled Contract
Contract Number: GS-35F-538BA

JOB DESCRIPTION:

CASE Emergency Systems Blue Light Tower

Work to be performed:

Blue Light Tower is manufactured by CASE and includes the following features:

- Solar panel and battery backup,
- Area light,
- Blue light steady /strobe,
- Electronic faceplate with one or two buttons, speaker, microphone,
- Alarm Monitoring software that communicates with CASE maintenance server
- CASEAlert daily alarm reports to email.

Testing and Commissioning

- Phone and features will be tested for full functionality upon completion of installation by a CASE Certified Technician
- System will be verified and signed off by Owner indicating acceptance.

Additional Clarifications

- If required, customer will provide access badges, keys, and or escorts to perform this installation in a timely manner
- Delays due to limited access or other events, which are out of CASE Systems control, will be billed per hour for every hour the delay exists. (\$125/hr.)
- Installation will be performed between the hours of 7:30 am and 4:30 pm Mon – Fri.
- Phone locations must be marked with spray paint by system owner prior to installation.
- Underground clearance must be provided by the installer before installation can begin.
- Price quoted is for agreed installation method between CASE and Client. Change Orders may affect pricing and will be quoted separately.
- Product shipped to owner's facility must be stored in a protected manner to uphold warranty.

1 -year Manufacturer's Warranty with additional 1-year unlimited warranty.

CASE offers a 1-year warranty on all parts and labor when phones are installed to manufacturers specification.

Additional 1-year Warranty on all parts, includes monitoring software

For warranty to be valid, all units must be commissioned by a certified CASE Technician.

Extended maintenance plans available for purchase.
