3-2-1 student desk

MODEL #: 03002

DIMENSIONS + FREIGHT

MODEL #	D"	W"	H"	F.C.	CUBE	WEIGHT
03002	29.5"	40"	22" - 34"	70	1.9	55 lbs.
carton	31"	41"	3.25"			

OVERVIEW

The shape allows the 3-2-1 Desk to be arranged to fit the day's lesson plan. For a lecture or testing, 3-2-1 Desks can be lined up in rows; for group work, the tables can be arranged in partial and full circles. Best for pre-k through grade 2 cooperative learning classrooms.

The WORK SURFACE consists of a 45 lb density particle board core with a 0.030" high pressure laminated surface and a 0.020" melamine backer sheet. The edge of the work surface features a t-mold edge that is mechanically fastened to the underside of the work surface every 6 to 8 inches to assure a long lasting fit. 1 1/4" or 3/4" thick top.

The ELLIPSE LEGS are made out of 1" x 2" 14-gauge oval steel tubing which is protected with a durable powder coat finish that matches the color of the nylon cap. The legs are welded to a square brace and a plate for added surface contact and weight distribution. Includes 1" adjustable leveling glides with locking stops to provide stability on uneven floors.

Seating

Seating is unique as a fingerprint. Students sit in thousands of different positions; upright, slouched, twisted and tilted. They stretch out their legs, sit on them, cross them and bounce them. They will balance on their chair or teeter on the back, tempting gravity — and common sense.

OVERVIEW:

Students come in all shapes and sizes, in the design of oodle, we considered every body type. With 17" of seating surface, larger students will feel just as welcome using an oodle. The unique base design incorporates a structural disc, which when flipped 180° provides the student with the ability to wiggle.

But let's face it, active seating is not for every student (or every situation for that matter). For those students and situations, the movement disc is easy for a teacher to flip and remove movement from oodle.

To stack oodle or sit flat, turn the movement disc over to the flat side and lock in place.

The rocker base (structural disc) features a modest 10° of motion when engaged. With such an active seat, we designed oodle's edge to catch a student before he or she is able to lose their balance. And, of course, motion is optional on oodle, simply flip the rocker base back to flat to eliminate motion.

The oodle model "OODLE31" is sold with (3) three 6.5" high sections and (1) one rocker base. (additional rocker bases sold separately, Model "OODLEBASE CGR").

The oodle model "OODLE33" is sold with (3) three 6.5" sections and (3) three rocker bases. This setup allows each 6.5" section to be it's own 6.5" oodle.

OVERVIEW

Plato seating offers the student comfort thanks to it's generous seat pan and seatback that provides some flex front-to-back and pronounced lumbar support, encouraging good posture and breathing on the part of the student. It's fresh, yet familiar shape connotes comfort to the student. The Adjustable Plato Chairs adjust from 16" to 21" in height, available in 18 colors and feature a 5-star base that comes in black. Available with glides or casters.

MATERIALS

The SHELL is 100% virgin polypropylene material with a shallow seat pan to allow side-to-side movement. The back has integrated lumbar support for optimum comfort and minimal back pressure.

The seat is secured to the FRAME with an 11-gauge plate mounted by 4 screws beneath the chair. The plate attaches to a pneumatic lift, which is a hydraulic cylinder that allows a full 360 degrees swivel. It comes with a black nylon base with a 25" diameter 5-star design and in a choice of 2" soft tread casters or glides.

STORAGE

Imagine a classroom where four or five groups of six students are working on projects. The teacher circulates about, providing information, direction and encouragement. To allow for all this activity, materials and resources must be organized and readily available to students. Independent access to resources for students frees the teacher to direct and instruct as needed. That's the idea behind Cascade.

OVERVIEW

Featuring nine compartments and a selection of twenty beautiful finish colors, the Cascade Cubby offers an open-shelf layout with easy access for maximizing storage in any classroom setting. The powder coated all steel construction maximizes durability guarantying many years of service.

MATERIALS

The END PANELS are made of 18-gauge 1" square tubing, welding flush to an 18-gauge end panel. The inside of each end panel is reinforced by 22-gauge hat channels. These hat channels are dual-purpose: added strength and for tote rail shelf mounting. The dome top is 18-gauge formed and welded construction, bolted to each end panel and rear panel with a total of ten machine screw fasteners. The base is a durable 18-gauge steel construction formed and welded to support the entire weight of the unit squarely. Underneath is a heavy welded hat channel for reinforcement. The base shelf is attached to both end panels using four machine screw fasteners. The rear panel is 18-gauge steel reinforced with up to three vertical hat channels. Two grommet holes (a lower and an upper) are punched for convenient wire management and electronic storage. The 18-gauge cubby dividers bolt to the 16-gauge center supports that are bolted to the dome supports and hat channels. Casters are 5" in diameter, with two locking. Optional glides are 3/8" threaded stem.

RISER SHELVES are sized perfectly for each cabinet size. These riser shelves are made of 1 1/4" thick high-density particle board with your choice of laminate and bullet t-mold color. The shelf is suspended six inches above the dome top with four riser shelf handles, which measure 1-1/2": diameter and come in platinum powder coat finish (0.03" thickness). These riser shelf handles bolt on from underneath the dome top with four 3" washers.

The OPTIONAL DOORS include a secure and reliable locking mechanism, which engages lock rods into the dome top and the base shelf. Doors also come with urethane ergonomic and modern door handles of your color choice. The fully hinged doors articulate 270°, free of obstruction.

OVERVIEW

The Everything™ Cart has two levels of double-face bins that can hold almost anything from books to art supplies, gym equipment and student works. They move easily through aisles on soft-tread dual wheel casters that won't shimmy like single wheels.

MATERIALS

Units come fully welded and assembled, just pop in the casters and they are ready to go. Everything Cart consists of (2) Frames, (2) End Panels and (2) shelves with 6 bins. The End Panels consist of 20-gauge steel full height panels welded to 1" square 18-gauge steel tubing Frame with formed in handles that radius for added comfort and ease of movement. The Shelves are constructed of 20-gauge steel shelves that are 34" long x 17 3/16" deep on each side and a 6" high back. The shelves have 20" clearance inbetween and are welded to the frames and end panels of the Book Truck. All Book Trucks feature 4" diameter dual wheel casters with soft tread for quiet operation. Dual wheels have no saddle that may damage surrounding furniture.

OVERVIEW

The Cascade mid-case AV Presentation Cart provides movable, lockable storage for AV equipment and a durable work surface. Includes 4 Power Outlets outside, 5 Power Outlets inside as well as 4 wire holes and a perforated rear vent panel.

The END PANELS are made of 18-gauge 1" square tubing, welded flush to an 18-gauge end panel. The inside of each end panel is reinforced by 22-gauge hat channels. These hat channels are dual purpose: added strength and for tote rail shelf mounting. The dome top is 18-gauge formed and welded construction, bolted to each end panel and rear panel. The base is a durable 18-gauge steel construction formed and welded to support the entire weight of the unit squarely. Underneath is a heavy welded hat channel reinforcement. The base shelf is attached to both end panels. The Rear Panel is 18-gauge steel reinforced. Two grommet holes (a lower and upper) are punched for convenient wire management and electronic storage. Casters are 5" in diameter, with 2 locking. Optional glides are 3/8" threaded stem.

RISER SHELVES are sized perfectly for each cabinet size. These riser shelves are made of 1 1/4" high density particle board with your choice of laminate and T-Mold color. Shelf is suspended 6 inches above the dome top with 4 riser shelf handles, which measure 1 1/2" diameter and come in Platinum powder coat paint finish (0.03" Thickness). These riser shelf handles bolt on from underneath the dome top with a hefty 3" washer.

The DOORS include a secure and reliable locking mechanism, which engages lock rods into the dome top and the base shelf. Doors also come with urethane ergonomic and modern door handles of your color choice. The fully hinged doors articulate 270 degrees, free of obstruction.
