Subject: New Course – Advanced Culinary Arts

MISD Board of Trustees:

Agenda Item – 7C

Background Information

Interest in our culinary programming is necessitating a more advanced course to serve our student population. Additionally, the teacher is working to begin a student catering opportunity for MHS, and this course would provide that opportunity.

Attached you will find the TEKs for the new Advanced Culinary course. This addition will go into effect for the 26-27 school year and will be included for course selection for academic advisement.

Fiscal implications

None. This course receives a 1.47 CTE funding multiplier.

Administration Recommendation

MISD administration recommends approval of these courses.
