To Whom It May Concern:

Mt. Harrison High School is excited to announce the formation of its' first ever Business Professionals of America Chapter also known as BPA. BPA is a nationally recognize student organization that helps students develop leadership skills, professionalism/experience critical in the workplace and citizenship. Competition and networking is a big part of this student organization which can provide opportunities for personal development.

We would like to formally request that an account be created in our name: MHHS-BPA so that we may collect member dues of \$30, as well as have an account where we can deposit our fund raising efforts. The money we collect will be used to help pay for competition expenses and team building activities. Mrs. Pelayo, Ms. Stevenson and Mr. Kent are our BPA advisors and will be overseeing all the financial activity that takes place.

I'm eagerly looking forward to see how our BPA Chapter will impact and empower my classmates as well as the experiences we will share. Thank you for your time and consideration.

Sincerely,

Jena Hulme  
MHHS-BPA President

Sarah Pelayo  
MHHS-BPA Advisor
