Subject: **Request for New Positions**

MISD Board of Trustees: August 18, 2026

Agenda Item – 9A6

Background Information

We are requesting approval for four additional staff positions as a contingency measure to provide us with flexibility to respond promptly to emerging needs and requirements. Within our special education programming, we anticipate needing a nurse to support a new elementary student who requires 1-to-1 care. Dyslexia enrollment is tight in our middle schools, and we may need to respond to growth as additional students enroll. Additionally, we are working on support staffing in both our PEIMS and HR departments as we shift priorities in response to training needs. While immediate need to fill all four positions may not materialize, establishing the positions in advance would allow us to act quickly should that be necessary.

Fiscal implications

Approximately \$300,000 if all positions are needed.

Administration Recommendation

Approve the new positions as requested by administration.
