## Superintendent's Consulting Activities

*(This should be addressed in the superintendent's contract, not policy.)*

The Board expects the superintendent to devote full attention and energy to the concerns of the district. The Board, however, recognizes the superintendent's obligation to contribute to the profession of school administration and to the field of public education in general. This policy, therefore, does not prohibit the superintendent from undertaking occasional consulting work that does not conflict with obligations to the district. The superintendent shall keep the Board informed of consulting activities.
