

DISCUSSION OF PROPOSED 2025 - 2026 PREKINDERGARTEN BOUNDARIES

This agenda item consists of a presentation and discussion of proposed 2025 - 2026 prekindergarten boundaries. Assisting the administration with this presentation is Hudson Huff of Zonda Demographics. Zonda Demographics has been assisting the school district with a demographic study of the entire school district. While the full demographic study will extend over several months, the approval of 2025 – 2026 prekindergarten boundaries is time sensitive because it impacts the reopening of the Burleson Elementary School as a prekindergarten center in August 2025.
