**Re: Approval of VGI Technology, Inc. for Integrated Camera Surveillance and Card Access Solution**

---

As part of the 2023 Bond election safety and security initiatives, the replacement and upgrade of an integrated camera and card access solution are to be completed on all campuses.

The proposal from VGI Technology, Inc. was procured in accordance with Texas Education Code §44.031 through the district's membership with the TIPS purchasing cooperative. We will be paying for these upgrades out of remaining funds from the 2016 bond proceeds.

This quote includes the equipment and installation for CMS East, CMS West, CMS North, New Tech High, Victory place, Brock, and the Vonita White Administration Building. The CHS 9<sup>th</sup> Grade campus and the Service Center have already been completed. The remaining campuses will be forthcoming in a future request to the Board of Trustees.

**RECOMMENDATION:** That the Coppell ISD Board of Trustees approve the proposal from VGI Technology, Inc. for the replacement of camera surveillance and door access at CMS East, CMS West, CMS North, New Tech High, Victory place, Brock, and the Vonita White Administration Building for a total cost not to exceed \$2,600,000.
