Subject: Payette Lakes Middle School Project Update

Members of the Board,

Construction has commenced on the south wing of PLMS. Most of the heavy demolition, including asphalt and concrete removal, was completed over spring break. Ongoing construction activities will remain contained within the fenced area on the south side of the building until the end of the school year.

Following the start of summer break, work will expand to include the multipurpose room addition and roadway realignment. The project is currently anticipated to be completed by September 1.

Jason Clay

Director of Maintenance and Operations
