Chris Reitan, Superintendent
Craig City School District
PO Box 800 / 100 School Road
Craig, AK 99921

Re: Preventive Maintenance Program Compliance Certification

Dear Mr. Reitan,

On November 15, 2021, pursuant to 4 AAC 31.013(e), the department conducted a site visit of the Craig City School District for the purpose of assessing the preventive maintenance and facilities management program. The site visit established that the district was not in compliance with all elements of a preventive maintenance and facility management program as described in 4 AAC 31.013(a). A site visit final report dated February 7, 2022, noted the specific deficiencies.

Since the notice of non-compliance, the Craig City School District maintenance personnel have worked with the department. Energy management reports covering a satisfactory twelve-month period have now been submitted. A review of the evidence has been completed and the district is found to be in compliance with the minimum requirements of a compliant preventive maintenance and facility management program.

Therefore, as prescribed in 4 AAC 31.013(e), the district is eligible to submit Capital Improvement Project (CIP) requests until otherwise notified following an assessment under the provisions of 4 AAC 31.013(f).

If there are any questions regarding this determination, please contact me or speak to Wayne Marquis at (907)-465-6928.

Sincerely,

A handwritten signature in cursive script that reads "Lori Weed".

Lori Weed
School Finance Manager

cc: Wayne Marquis, Building Management Specialist
Lacey Sanders, Deputy Commissioner

STATUTES

Sec. 14.11.011. Grant Applications.

(b)(1) a six-year capital improvement plan that includes a description of the district's fixed asset inventory system...

(b)(4) evidence acceptable to the department that the district

(A) has a preventive maintenance plan that

(i) includes a computerized maintenance management program, cardex system, or other formal systematic means of tracking the timing and costs associated with planned and completed maintenance activities, including scheduled preventive maintenance;

(ii) addresses energy management for buildings owned or operated by the district;

(iii) includes a regular custodial care program for buildings owned or operated by the district;

(iv) includes preventive maintenance training for facility managers and maintenance employees;

(v) includes renewal and replacement schedules for electrical, mechanical, structural, and other components of facilities owned or operated by the district; and

(B) is adequately adhering to the preventive maintenance plan.

Sec. 14.11.100. State Aid for Costs of School Construction Debt.

(j) Except as provided in (l) of this section, the state may not allocate money to a municipality for a school construction project under (a)(5), (6), or (7) of this section unless the municipality complies with the requirements of (1) - (5) of this subsection, the project is approved by the commissioner before the local vote on the bond issue for the project or for bonds authorized after March 31, 1990, but on or before April 30, 1993, the bonds are approved by the commissioner before reimbursement by the state, and the local vote occurs before July 1, 1987, or after June 30, 1988. In approving a project under this subsection, and to the extent required under (a)(8) - (17) of this section, the commissioner shall require

(5) evidence acceptable to the department that the district

(A) has a preventive maintenance plan that...

(i) includes a computerized maintenance management program, cardex system, or other formal systematic means of tracking the timing and costs associated with planned and completed maintenance activities, including scheduled preventive maintenance;

(ii) addresses energy management for buildings owned or operated by the district;

(iii) includes a regular custodial care program for buildings owned or operated by the district;

(iv) includes preventive maintenance training for facility managers and maintenance employees; and

(v) includes renewal and replacement schedules for electrical, mechanical, structural, and other components of facilities owned or operated by the district; and

(B) is adequately following the preventive maintenance plan.

REGULATIONS

4 AAC 31.013. Preventive maintenance and facility management

(a) For a district to be eligible for state aid under AS 14.11.011, the district must have a facility management program that addresses the following five elements of facility and maintenance management:

(1) a formal maintenance management program that records maintenance activities on a work order basis, and tracks the timing and cost, including labor and materials, of maintenance activities in sufficient detail to produce reports of planned and completed work;

(2) an energy management plan that includes

(A) the recording energy consumption for all utilities on a monthly basis for each building; for facilities constructed before 12/15/2004, a district may record energy consumption for utilities on a monthly basis when multiple buildings are served by one utility plant; and

(B) regular evaluation of the effectiveness of and need for commissioning existing buildings;

(3) a custodial program that includes a schedule of custodial activities for each building based on type of work and scope of effort;

(4) a maintenance training program that specifies training for custodial and maintenance staff and records training received by each person; and

(5) a renewal and replacement schedule that, for each school facility of permanent construction over 1,000 gross square feet, identifies the construction cost of major building systems, including electrical, mechanical, structural and other components; evaluates and establishes the life-expectancy of those systems; compares life-expectancy to the age and condition of the systems; and uses the data to forecast a renewal and replacement year and cost for each system.

(b) Repealed 12/15/2004.

(c) At the request of a chief school administrator, the department will assist a district in implementing a qualifying preventive maintenance program through consultation, on-site reviews, and training.

(d) Repealed 12/15/2004.

(e) On an annual basis, the department shall provide a preliminary notice to each district regarding its compliance with each element required in (a) of this section, based on evidence of a program that was previously provided to the department, or that was gathered by the department during an on-site visit conducted under (f) of this section. On or before June 1, the department will provide its preliminary notice. The department may change a determination of non-compliance at any time during the year based on new evidence. Districts that are not in full compliance must provide evidence of compliance to the department by August 1. On or before August 15, the department will notify districts of its final determination regarding compliance. The department will deny a grant application submitted under AS 14.11.011 by a district that has received a final determination from the department that the district is out of compliance with this section.

(f) The department shall conduct on-site inspections of school district preventive maintenance and facility management programs at least once every five years. The department may make

additional inspections as it deems necessary. The department may change its determination of compliance based on information obtained during the on-site inspections.

(g) In this section

(1) "district" has the meaning given in AS 14.11.135;

(2) "maintenance activities" means all work performed by district staff or contractors on building systems, components, utilities, and site improvements.
