

Middle School Board Report

August 2024

SUMMER SCHOOL FUN

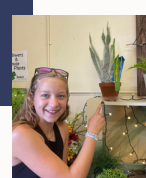

From Legos to baking to enjoying nature and the outdoors this years summer school options had something for everyone.

While some preferred to stay closer to campus, they enjoyed creating Lego masterpieces and delectable desserts. Other middle school students were able to explore some of the great paths left behind from the Ice Age while hiking the Wisconsin Ice Age Trail. Students had a blast getting outside exploring all that nature had to offer, including mosquitos.

Students Out and About

Middle school students were recently found showing off their hard work at the Polk County Fair. Earning top honors in poultry, swine, rabbits, house plants, cultural arts, and many more! While making new friends, these students showed top notch sportsmanship, respect, and pride.

THE BOYS & GIRLS OF SUMMER

This summer, our middle school baseball and softball teams experienced an incredible journey of growth and camaraderie. Players learned the value of teamwork, discipline, and perseverance, all while having a blast with their teammates. The season was marked by outstanding displays of sportsmanship and Unity Pride, as players supported each other on and off the field, creating lasting friendships and a strong sense of community. The lessons learned this summer will undoubtedly help them excel as both athletes and individuals.
