Principal's General Narrative:

The first semester has come to an end. Our students did great representing BISD throughout the fall season. I am sure the new year will bring greater things for BISD.

We started the second semester with a reflective activity for students and teachers. The intention was to get teachers to see how students performed during their first semester and identify what needs to be reviewed, who needs helps, and how is it going to be reviewed. For students, I wanted them to profile their own test results so they could clearly see their performance or lack of performance. The intent was to get them to see what they need to work on. Staff was instructed to use the data to reflect and come up with an action plan. They have plenty of data to identify the what, the when, and the how. I advised them that the how needed to be prescriptive/intentional. Secondary started the second semester with a sense of urgency to get our students up to par.

On behalf of our staff and the student body, we want to extend our gratitude for the support we get from our School Board Members. Thank you for your leadership that inspires and your vision that transforms. Thank you for everything you do! Happy School Board Member Recognition Month!

One District.....ONE Team! We are making it a great year!!!
