

# Special Programs Board Report

April 2012

## **Special Education:**

We will be reviewing and finalizing eligibilities for eight new students in Special Education this month. All staff complete their required checklists before proceeding with eligibility.

As part of the SPR&I corrections, we will be conducting a training this June on transition goals, students rights to transfer their IEP at age 18, and documenting 990 hours of service post school.

**SpEd Caseload:** 137 k-12

## **AVID District Wide:**

We have registered the AVID team for the required Summer Institute in San Diego. This year, AVID moves to the high school for a 9<sup>th</sup> grade elective course. Each team will work on creating a site plan and provide documentation for certification from AVID this next year. We will have a launch meeting June 14<sup>th</sup> where staff will begin their training for summer work.
