1	46631	overhead proj	I am putting these tag numbers on this sheet so they will be removed from the inventory. We have not had them in the library since I started working here in 2001. Every year I have added a note about them being gone on the inventory worksheet and every year they are still listed. They were old and discarded. Some might have gone to teacher's classrooms, but they were <u>OLD</u> .
