

Athletic Report 8/5/13

The three fall sports seasons are off and running! This year is going to be a great year! Our numbers in athletics are much higher than last year. For example, in all sports last year, our boys numbered 64 in high school. We have a preregistered number of 80 this year and at our first football practice we had 62 kids compared to 49 last year. I am excited to see this! Our girls numbers are up from 48 to almost 60. Volleyball had 39 at their first day of practice. Cross Country is sharing quite a few athletes with the other two fall sports but is putting up numbers in the 30's. These numbers will give us a great opportunity to make a positive impact in these students' lives. We are excited and ready for a great year!
