Detail

The Tax Assessor/Collector collection certification is required by the State Property Tax Code, Section 26.04(b), and must be submitted to the governing body before the tax rate can be calculated and adopted.

The anticipated combined collections of the current and delinquent taxes with penalties and interest will provide to the Lee College District ninety-eight percent (98.00%) collections of the 2026 tax billing and is therefore certified at ninety-eight percent (98.00%).
