Dear School Board and Superintendent Guardipee-Hall;

Greetings from the Colonies. The month of January began very smoothly. Both the teachers and students enjoyed the winter break even though the students still attended German class. Both Colony schools have 96% to 100% attendance and 100% of their work completed at the end of each week.

The online classes are going well. It is nice to visually connect with each grade level and carry on with our regular curriculum as if we were in the class with them. We are thankful for our German teacher's help in the classroom, assisting students, and keeping everything in control. Both Colony schools are eager to return to in person instruction but are happy to comply with whatever the board decides.

Thank You,  
Mr.Black Principal
