

Lincoln Elementary School

Building Independent Thinkers and Problem Solvers, One Student At A Time!

April 2021

Report to the Board of Education

Lincoln Elementary School

Kelly Millburg, Principal

Enrollment:

April 2020

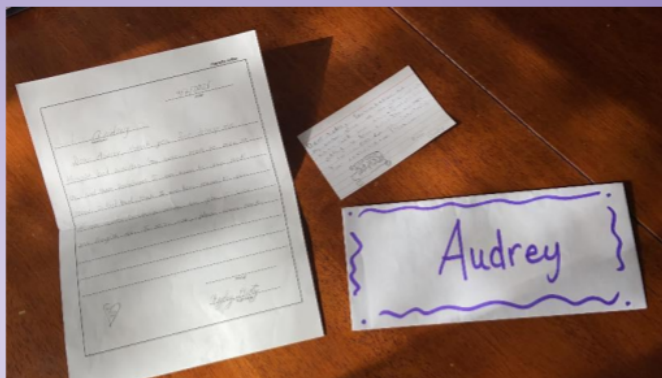

April 2021

3rd Grade	78	3rd Grade	77
4th Grade	107	4th Grade	74
5th Grade	81	5th Grade	102
Total	266	Total	253

- The Capturing Kids Heart committee put together “Kindness Wednesdays” with fun activities for kids to participate in like pajama day, favorite sport team day, superhero day and wear blue day. Each Wednesday classes took time to write notes of affirmation to our cafeteria staff, bus drivers and aides, custodians, building aides and to each other.

This is a public Thank-You from some of the bus driving staff from a Facebook Post.

Last week the bus drivers and bus aides received some very special notes and letters from Lincoln Elementary School students! We all wanted to thank each and every one of you for taking the time to write, draw and color our thank you notes and know that we REALLY APPRECIATED all of them so very much! And thank you to the teachers as well for helping!!
-Audrey Kirkbride-

Oh my goodness! I loved mine! This is why I like being a bus aide...Thank You Lincoln School!
-Pam Wright-

- We were able to hold an Online Book Fair that our PTO put together in place of our usual Spring Book Fair. It was promoted through the school apps and social media and notes to parents.
- IAR testing is complete. Fifth grade will be taking the 2 Science assessments on the 27th and 28th of April and then Map testing will start the week of May 10th.
- We celebrated the completion of the IAR testing with Root Beer Floats on Friday 4/23 as a way to take a break for a little fun before the Map testing begins.
- Spring pictures have been taken and the Yearbooks are in and delivered.
- Looking ahead we have found ways to adjust around Covid restrictions while still being able to hold the annual field day, park day, Virtual Recycling Lady from Christian County Solid Waste Management Department, Virtual Field Trips with Live Cams and the end of the year awards. More about these events will be in the May board report.

Classroom Activities

Mrs Sloan's class learned about which column is strongest and about finding the area & perimeter of their dinner table. They learned the importance of the STEM process: design, build, test, & redesign. TECH Time is more than computer skills.
