Re: Denton Creek Playground Replacement

As part of the 2013 Bond Projects, Denton Creek Elementary is to have their playground equipment replaced. The existing playground equipment is nineteen years old. Louis Macias worked closely with Shannon Edwards in determining the best solutions for the replacement of both playgrounds.

The Interlocal Contract purchasing method as provided in the Texas Education Code 44.031 was used to obtain proposals through the Region 18 purchasing cooperative.

Noah's Park and Playgrounds, LLC provided the proposal with the best value for the district. Noah's Park total turn-key proposal for both playgrounds is \$78,505.38. The pricing includes all materials, labor, installation, and removal/disposal of the old equipment. We budgeted a total of \$80,000 for this project. We have used Noah's Park for several playground replacements and additions, and have always been very pleased with their value and quality of work.

RECOMMENDATION: That the Coppell ISD Board of Trustees approve Noah's Park & Playgrounds, LLC as the contractor to complete the playground replacements at Denton Creek Elementary for the sum of \$78,505.38.
