Topic: Student Services Department

Background

Each year a summary of the departments that fall under the Student Services Department is provided to the Benjamin 25 Board of Education

Summary

The presentation will provide an overview of student data related to Special Education services, Section 504 plans, Multilingual services, and Early Childhood programs. It will also include an update on the implementation of the MTSS framework, as well as data on students served under the McKinney-Vento Act and Youth in Care provisions. The presentation will conclude with a summary of priority focus areas for each department.

Priorities to focus on moving forward would be:

1. Collaborating with Mrs. Smith to support the MTSS committee
2. Continuing to focus on special education services and the identification process
3. Continuing to grow our Early Childhood program

Recommendations

I recommend presentation as information for the board of education
