

PRESS PLUS ISSUE #108 NOVEMBER 2021

POLICY COMMITTEE MEETING DECEMBER 17, 2021

LINCOLNWOOD SCHOOL DISTRICT 74 \ SECTION 4 - Operational Services \

Document Status: Draft Update

Operational Services

4:160 Environmental Quality of Buildings and Grounds

The Superintendent shall take all reasonable measures to protect: (1) the safety of District personnel, students, and visitors on District premises from risks associated with hazardous materials and (2) the environmental quality of the District's buildings and grounds.

The Superintendent shall notify all employees who must be offered, according to State or federal law, District-paid hepatitis B vaccine and vaccination.

Pesticides

Restricted use pesticides will not be applied on or within 500 feet of school property during normal school hours. [PRESSPlus1](#)

Before pesticides are used on District premises, the Superintendent or designee shall notify employees and parents/guardians of students as required by the Structural Pest Control Act, [225 ILCS 235/](#), and the Lawn Care Products Application and Notice Act, [415 ILCS 65/](#).

Coal Tar Sealant [PRESSPlus2](#)

Beginning on 1-1-23, before coal tar-based sealant products or high polycyclic aromatic hydrocarbon sealant products are used on District premises, the Superintendent or designee shall notify employees and parents/guardians of students in writing or by telephone as required by the Coal Tar Sealant Disclosure Act.

ADOPTED: September 10, 2002

REVISED: April 4, 2019

REVIEWED: May 3, 2018

PRESSPlus Comments

PRESSPlus 1. The Illinois Pesticide Act (415 ILCS 60/14 3.F., amended by P.A. 102-548) makes it unlawful to apply a restricted use pesticide on or within 500 feet of school property during normal hours, except for whole structure fumigation, and if the pesticide application information listed on the pesticide label is more restrictive than the law, then the more restrictive provision applies. *Normal school hours* means Monday through Friday from 7 a.m. until 4 p.m., excluding days when classes are not in session. The statute prohibits restricted pesticide applications during *normal hours* but defines *normal school hours*. This policy uses normal school hours. *State Restricted Pesticide Use* is defined as any pesticide use which the Director (Ill. Dept. of Agriculture or his or her authorized representative) determines, subsequent to public hearing, that an additional restriction for that use is needed to prevent unreasonable adverse effects. **Issue 108, November 2021**

PRESSPlus 2. 410 ILCS 170(a)(1)-(4), added by P.A. 102-242, eff. 1-1-23, requires schools to provide written or telephonic notification to employees and parents/guardians of students prior to any application of a coal tar-based sealant product or a high polycyclic aromatic hydrocarbon sealant product. Written notifications must: (1) be included in newsletters, bulletins, calendars, or other correspondence currently published by the district (this is the only prong of written notice that is permissive); (2) be given at least 10 business days before the application and should identify the intended date and location of the application of the coal tar-based sealant product or high polycyclic aromatic hydrocarbon sealant; (3) include the name and telephone contact number for the school or day care center (if the district has one) personnel responsible for the application; and (4) include any health hazards associated with coal tar-based sealant product or high polycyclic aromatic hydrocarbon sealant product, as provided by a corresponding safety data sheet.

Districts may want to include numbers (3) and (4) in their student handbooks. The Ill. Principals Association (IPA) maintains a handbook service that coordinates with PRESS material, Online Model Student Handbook (MSH), at: www.ilprincipals.org/resources/model-student-handbook. **Issue 108, November 2021**
