Thomas Built vs. Blue Bird

1. Aluminum Wheels 11R/22.5
  - a. Light weight less power to move bus
  - b. Easier on motor (engine) last longer
  - c. Save on fuel costs
  - d. Easier to work on
  - e. Keeps brakes cooler, dissipates heat more than steels rims
2. Disc Brakes
  - a. Savings on cost
  - b. Interchangeable from side to side, front to back. (*Drum brakes: front pads and back pads are different and aren't interchangeable and the same with the drums.*)
  - c. 50% to 70% better stopping distance
  - d. Easier to service, less moving parts cuts down on repair time
3. Air conditioning
  - a. Thomas uses a well-known product (*Carrier*)
  - b. Easier to service
  - c. Parts have a better availability
  - d. Cools better
4. Special Education Bus
  - a. Flat Floor
  - b. By having the flat floor the bus uses the same tire size as the Regular Ed School Buses only have to stock one size tires
  - c. Having 11R/22.5 will get better fuel mileage

- d. Having the flat floors the wheel chairs will be placed in front of the rear wheels which will make the ride much smoother.
5. Freightliner
- a. Repairs on Freightliners can be done at different Dealers in town. We have a problem when the Blue Birds brake down we can only send it to one dealer in town and the down on the buses prevent us from being efficient in transporting or District students to and from school in a timely matter.

including but not limited to brake pads and linings, wiper blades, light bulbs, filters, lubricants, fluids, belts, tires, tightening threaded-fasteners, front-end alignment, wheel-balancing, body tie-downs, and door adjustments. This warranty shall not apply to any parts or components which must be repaired, replaced or adjusted during the warranty period as a result of accident damage, abnormal operation, misuse and/or abuse, including but not limited to excessive operation on unpaved, un-maintained roads, operation on cross-country trails or off-road conditions, collision, fire, vandalism, explosion, objects striking the vehicle, theft, freezing, riot, flood. Paint adhesion failures resulting from abrasions, atmospheric conditions, road chemicals, caustic detergents/cleaners, and/or improper maintenance. Paint adhesion failures, whether warrantable defects or non-warrantable events, that are not repaired immediately upon discovery of the failure may deteriorate the finish and/or panels underneath. Surface corrosion and/or other progressive deterioration as a result of not repairing paint failures immediately is not covered by this warranty. If dealers or customers have any vehicle modifications or equipment installations performed without the written approval of Blue Bird, to the extent the modifications or equipment installations adversely affect other vehicle components or performance, Blue Bird shall not accept any product liability or claims under the terms of the limited warranty. These claims become the sole responsibility of the company performing the modifications and/or installations. Transportation expenses to deliver the bus to a Blue Bird Dealer or nearest qualified repair facility, including but not limited to fuel, driver time/pay, mileage and towing. Repairs to parts or components which have been previously replaced with parts not obtained from Blue Bird or failures caused by non-Blue Bird parts or components. Rework of repairs not performed by or approved by a Blue Bird Dealer. Excessive labor hours, premium labor costs, overtime labor costs, local taxes. This limited warranty covers reasonable labor to perform replacement or repair. Defects not reported to a Blue Bird Dealer and repaired during the warranty period. Repairs are to be made immediately upon discovery of the defect. Damage caused by using improper or contaminated fluids, including but not limited to fuels, lubricants and coolant. Damage caused by using fluids that do not meet Blue Bird's or the Manufacturers' minimum recommendations. Damage caused by the lack of fluids and/or improper fluid maintenance. Overloading beyond the normal seated and standee capacity voids all warranties.

\*Covered components of the propane-powered engine are the internally lubricated parts of the engine, including pistons, piston rings, piston pins, crankshaft and main bearings, connecting rods and rod bearings, camshaft and camshaft bearings, timing chain, timing chain gears, intake and exhaust valves, valve springs, oil pump, push rods, rocker arms, valve/lash adjusters, hydraulic lifters, rocker arm shafts and valve stem seals. The engine block and cylinder heads are also covered. Seals and gaskets are covered only as part of repair or replacement of the above covered components. This engine coverage does not apply to any external engine parts, including but not limited to cooling system parts, ignition parts, fuel system parts or engine management parts.

Blue Bird reserves the right to make changes in design and changes or improvements upon its products without imposing any obligations upon itself to install the same upon products theretofore manufactured. Any suit alleging a breach of this limited warranty or of any other alleged warranty must be filed within one year of breach.
