

Athletic Track Repair

The Track and Field events runway is in need of repair. We have received quotes from three vendors that are on the approved vendor list.

Project 1: To make necessary track repairs, spraying 2 coats of structural spray and re-stripe.

Project 2: After inspecting the track and field events area, we need to remove the existing material on one of the pole-vaulting runways and completely re- work that runway as well. To remove and replace the material would be an additional cost.

VENDOR	PROJECT 1	PROJECT 2	TOTAL QUOTE
PROTECH	\$98,740	\$18,410	\$117,150
VICTORY TRACKS	\$118,702	\$18,000 DISCOUNTED TO \$9,000	\$127,702
QUALITY COURT	\$131,250	\$28,000	\$159,250

I would like to make a recommendation that we use ProTech to complete this project.

Total proposed cost for this project \$117,150.
