

**Beeville ISD**  
**BOARD OF TRUSTEES**

Date: March 22, 2016 Presented By: Erasmus Rodriguez  
Subject: HVAC Replacement & Building  
Controls Update (Summer 2016) Related Page(s) 2

**Information**

**BACKGROUND INFORMATION:**

In April 2013, the board approved Phase I of the HVAC replacement. During the summer of 2012, 64 units were replaced. As per our plan, Phase II needs to be considered at this time. In Phase II the replacement includes the following:

1. Replace (13) large HVAC systems that range in age from 15-23 years.
2. Replace (4) outside air HVAC units that are not working and re-commissioning the existing controls.
3. Replace (5) large HVAC units (200 tons) and retrofit existing building controls.

Scott Naab, Trane representative will be here to present the HVAC Replacement Plan for Phase II.
