

TMS Report to BOE

January 2021

Christmas Gifts for Middle School Students: I want to formally thank Bob Zietlow for his annual donation of Christmas gifts. For the past two years he has donated gifts for middle school students. This year, Bob collected and donated approximately \$1500 worth of gifts to the middle school.

Winter Coat Donations: Each year Harley Davidson donates winter coats to our district. This year 7 middle school students received a coat. Thanks to Harley for their continued generosity!

Upward Bound: Each January, UW Stevens Point's Upward Bound Program begins its annual recruitment process. Due to COVID, they will not be scheduling in-person informational sessions. This year we will present information to students and encourage eligible families to fill out the initial online application. Once completed, Upward Bound representatives will reach out to each respective family to schedule a virtual meeting.

Winter Athletics: Girls Basketball and Wrestling both began on Jan. 4th and will run until the end of February. All TMS sports will remain intramural for the 2020-21 school year.

Middle School Forensics: Middle School Forensics is in full swing and will continue until early March. Competition performances will be recorded and uploaded to Speechwire.com, which is a speech and debate tournament software being used by area schools.
