~~Northland Community Schools uses instructional technology as one way of supporting our vision to ensure that each student acquires 21st century skills to achieve his or her potential, become a productive community member and value lifelong learning. In an effort to be proactive with today's growing social and interactive technology trends, it is our hope that this new policy will increase awareness and training while putting into practice social and professional etiquette relating to electronic devices. Students in possession of a cell phone must comply with the Cell Phone Policy and the Internet Acceptable Use and Safety Policy.~~

DISTRICT DISCIPLINE POLICY

Refer to Policy 506

PURPOSE STATEMENT

The purpose of this policy is to ensure that students are aware of and comply with the school district's expectations for student conduct. Such compliance will enhance the school district's ability to maintain discipline and ensure that there is no interference with the educational process. The school district will take appropriate disciplinary action when students fail to adhere to the Code of Student Conduct established by this policy.

POSITIVE BEHAVIORAL INTERVENTIONS AND SUPPORTS (PBIS)

The goal of PBIS (**P**ositive **B**ehavioral **I**nterventions and **S**upports) is to increase academic achievement and foster the social development of all students. It is a school wide framework for helping all students achieve important social and learning goals. Rather than focusing on the response or punishment when misbehavior occurs, this approach introduces and models behavior expectations, and then recognizes students when the positive social behaviors occur. The purpose of PBIS is to establish a school climate in which appropriate behavior is the norm.

As part of this initiative much work has been done to build Eagle Pride, School Wide. Expectations for behavior are clearly posted throughout the building, school grounds, buses, and at all school related activities. A common language has been developed for everyone including students, administration, teachers, support staff, bus drivers, paraprofessionals, and guests. A system has been established to recognize students for their positive behavior, academics, and attendance on a weekly, quarterly, and semester basis. The following four behavior expectations have been established for all areas of Northland Community Schools:

EAGLE PRIDE, SCHOOL WIDE

Be Responsible
Be Respectful
Be Productive
Be Safe

Documents supporting PBIS are found on Google Drive.

RIGHT TO KNOW

ANNUAL INTEGRATED PEST MANAGEMENT PESTICIDE NOTIFICATION

Northland Community Schools uses licensed, professional pest control firm for the prevention and control of rodents, insects, and other pests in and around the district’s buildings.

Pests can sting, bite, cause contamination, damage property and spread disease; therefore, we must prevent their presence and control them as necessary. The district or outside contractors may also apply herbicides on district properties, as deemed necessary. The long-term health effects on children from the application of such pesticides may not be fully understood. All pest control materials are chosen and applied according to labeling directions per Federal law.

To limit the potential pesticide exposure, the district follows safety regulations to ensure pesticides are applied properly. All pesticide products, which are used in and around school buildings, are required to be registered with the Minnesota Department of Agriculture and the U.S. Environmental Protection Agency. In addition, school employees and certified and licensed applicators are required by state and federal law to comply with all requirements of the pesticide label, including building sites, application rates, re-entry intervals, posting, use of personal protective equipment, use restrictions, and disposal on the product label. An estimated schedule of pesticide applications is available for review or copying at the district office.

STANDARDS RESPONSE PROTOCOL

The Standard Response Protocol (SRP) is based on the response to any given situation not on individual scenarios. SRP incorporates a specific vocabulary but also allows for great flexibility. The premise is simple – these five specific actions that can be performed during an incident. When communicating these, the action is labeled with a “Term of Art” and is then followed by a “Directive.” Execution of the action is performed by active participants.

Hold is followed by the Directive: **“In Your Room or Area”** and is the protocol used when hallways need to be kept clear of occupants.

Secure is followed by the Directive: **“Get Inside. Lock Outside Doors”** and is the protocol used to safeguard people within the building.

Lockdown is followed by **“Locks, Lights, Out of Sight”** and is the protocol used to secure individual rooms and keep occupants quiet and in place.

STUDENT ACTIVITY ABSENCES

Staff members who will be taking students out of classes during the school day are asked to provide the office with a list of those students that will be gone. This list should be given to the office at least one day before the scheduled event with the purpose of the activity and advisor name. This list will be shared with all teachers that have those students throughout the day.

STUDENT HEALTH

When a student becomes ill, notify the office. In most cases, students who become ill should be escorted to the office. **NEVER** leave an ill student unsupervised.

If a student is ill, he/she will be allowed to rest in the nurse's room for up to an hour. If the illness lasts beyond that, the office /nurse will call the parents to pick up the student. (Make sure the child is checked on at least every 15 minutes while they are in the sick room.)

ACCIDENTS

If a student is injured while under teacher supervision, the responsible teacher should report the incident immediately to the principal's office and complete an "**accident report**" form by the end of the day. Parents need to be contacted if the accident required first aid or more.

All student accidents must have the proper form filled out on it the same day as the accident.

Medical Assistance to Injured Students

When a student is injured, the first adult on the scene shall give whatever first aid they are capable of giving and contact the school office if emergency medical help is needed. If the person giving assistance needs extra help, he/she will ask for it. If no assistance is requested, no other adult should interfere.

The district's responsibility is for first aid only. All other procedures must be left to the licensed medical professionals. There are multiple EMTs on staff that will be contacted for assistance.

Drugs or medication, including aspirin products, must not be dispensed by school personnel without written request from the parent. The medication must be in a pharmacy labeled container and stored in the office.

Parents of a student who needs emergency medical help must be contacted as soon as possible.

WEAPONS POLICY

(Refer to Policy 501)

PURPOSE STATEMENT

The purpose of this policy is to assure a safe school environment for students, staff and the public.

GENERAL STATEMENT OF POLICY

No student or nonstudent, including adults and visitors, shall possess, use, or distribute a weapon when in a school location except as provided in this policy. The school district will act to enforce this policy and to discipline or take appropriate action against any student, teacher, administrator, school employee, volunteer, or member of the public who violates this policy.

Paraprofessionals

Paraprofessionals are an integral team member, assisting students with special education needs, as well as many other student support areas. In the Northland Community Schools the primary role of the paraprofessionals is to provide direct support to students. This can include students with special needs in and out of the classroom by working with students one-on-one or in small groups. Paraprofessionals may however, be called on to perform a variety of other tasks. We hope that your time at Northland will be filled with positive growth and learning for you, as well as for the students and teachers with whom you will work with every day.

PROCEDURES/GENERAL INFORMATION

ABSENCES

Attendance and punctuality convey how seriously you take your job. Your supervising teacher and students you work with count on you being at work on time every day. All ~~l~~Leaves of ~~a~~Absences are addressed in the contract. Most leaves need prior approval. Please contact your building principal or payroll clerk to discuss leaves.

- All paraprofessionals are required to submit leave requests using the TimeClock Plus System.
- When the paraprofessional will be absent due to illness or special emergency, the paraprofessional must contact the school front office at **566-2351 by 6:30 AM**.
- After notifying the front office, the paraprofessional needs to enter the sick leave or special emergency leave in the TimeClock Plus system. Sick leave cannot be paid until the sick leave request is entered in the TimeClock plus system by the paraprofessional.

Often a major part of your supervision is directly related to the safety of students. Punctuality and adhering to your schedule within the day is very important. There will be times when your daily schedule changes. It is important that teachers or other persons you work with are notified of the changes you have been directed.

ATTITUDE

All employees convey an image of the school to other professionals, to parents, and to the community. We want this to be a favorable image. The paraprofessional is as much a part of creating this image as are the certified staff members. Therefore, your actions and speech should be always appropriate and professional. Show your support for the special education program as well as your supervising teacher verbally, enthusiastically, and actively. For example, just remembering to smile and being friendly towards others can make a difference, as well as looking to assist others. When working with students, having a sense of humor, praising their efforts, and using positive statements show students that you care about them and that you enjoy what you are doing.

SCHEDULES

Paraprofessionals will work with their supervising classroom or special education teacher to create a written schedule that will be submitted to the principal. These schedules are to be followed daily.

****Paraprofessionals working in a non-classroom environment will submit schedules to building principal.**

Each paraprofessional must arrive at their scheduled time. If a paraprofessional is aware ahead of time they may be late, a courtesy call to the district office is required, stating the approximate time of arrival. This is so the supervising teacher can plan appropriately and account for each of the students the paraprofessional is responsible for.

Each paraprofessional must stay for their scheduled time. If a paraprofessional must leave their workday early they must first clear it with their supervising teacher. A paraprofessional who leaves early without notifying their supervising teacher to make arrangements for their absence, will be subjected to district discipline policy.

LUNCH PERIODS/ REST BREAKS

Paraprofessionals working more than 5 consecutive hours per day shall be provided an unpaid-duty free lunch period of at least 30 minutes. Employees shall receive the following lunch periods and rest breaks:

3-5 work hours = 15-minute break

5+ - 6 hours = 30-minute duty free/unpaid lunch period

6+ work hours = 30-minute duty free/unpaid lunch period plus 15-minute break

CELL PHONE USAGE

Cell phones should never be out when working with students. Cell phones may be used at your discretion when NOT with a student and when you are on a break. Keep personal cell phone use to break time only unless it's an emergency.

COMMUNICATION

No matter how well a program is designed, success depends on good communication between the teacher and the paraprofessional. It is key to keep communication positive among staff and students. Poor communication skills and negative statements are at the heart of most problems. The learning process is totally dependent upon the staff establishing and maintaining good lines of daily communication. However, communication with students and staff goes beyond verbal interaction and includes nonverbal interaction. Research has concluded that approximately 80% of communication is nonverbal. Your actions may speak more loudly than your words.

SUPERVISION

Generally, paraprofessionals will almost always have one official immediate supervisor to deal with (typically the principal). However, due to the dynamic nature of the position, paraprofessionals may find themselves in environments that they may need to report to or take direction from many people. These people may include, but are not limited to special education teachers, general education teachers, related special education staff, and administration. The classroom and special education teacher that you work with will be a primary source of information for you and may be asked to provide information for your performance evaluation.

PARA "CHAIN OF COMMAND"

Please follow this chain of command when reporting to the district supervisors:

1. Regular Education Teacher, if working in the room at the time of question or concern
2. Special Education Teacher;
3. Building Administration;

GROWTH, REFLECTION & EVALUATION PROCESS

All new paraprofessionals are evaluated at least twice during the first year of employment. After the first year, paraprofessionals are evaluated at least once a year. More evaluations can be scheduled as needed.

- C. Upon completion of setting growth goals, the employee and the Principal sign the final document, which includes the growth goals and the employee's self-reflection, in order to show the required steps have been accomplished. The signatures do not mean agreement with the feedback or ratings. Also, the employee can attach to the evaluation document additional responses, comments or notes at any time.

PERFORMANCE IMPROVEMENT PLAN

- A. Should the Principal determine that there are multiple categories that need improvement, the Principal will meet with the paraprofessional's special education teacher and discuss feedback and growth opportunities. If the Principal and special education teacher determine further support is needed, they will reach out to their building administrator/Asst. Director of Special Education/Director of Human Resources, to seek support on further training, development, coaching, or, if needed, write a formal performance improvement plan for the paraprofessional.

PARAPROFESSIONAL DUTIES AND RESPONSIBILITIES

Paraprofessionals serve under the direction and supervision of the regular or special education teacher to assist in carrying out Individual Education Programs. You are a valued and skilled member of the educational team, and you may be asked to provide input to generate ideas to assist in the development of materials and adaptations for students.

ROLE OF PARAPROFESSIONAL

The role of the paraprofessional in special education is to directly or indirectly assist and support in the provision of services to students with disabilities to help them access the general education curriculum in as independent as a manner as possible. The role assignments with a paraprofessional are not defined by student, setting, or program, but rather by a student's needs as determined by the IEP.

BEHAVIOR MANAGEMENT

Maintain consistent behavior management, as defined by the team and the IEP, with each learner and assist with supervision of all activities. Some students have Behavior Intervention Plans (BIP) written into their IEP. These plans must be followed very closely. Please check with the case manager before implementing any type of behavior intervention, to be sure it is an approved procedure.

These vehicles, like SUVs, vans, cars, and trucks, are used for transporting school children. Type III vehicle drivers in Minnesota are required to be trained and follow specific policies and procedures for operating these vehicles.

Paraprofessionals at Northland, who hold a valid driver's license, will be given the initial and/or annual training and instruction to become certified as a Type III driver.

STUDENT MEDICAL INFORMATION

ADMINISTERING MEDICATIONS

It is the policy of Northland Community Schools not to administer any medications to students unless there is a written doctor's order on file. This policy includes over the counter medications such as aspirin, cough syrups, etc. Medications must be sent to school in the original bottle from the pharmacy, with the doctor's directions. Mixed dosages in the same bottle are not acceptable. Please consult your supervisor or school nurse with questions regarding this policy.

MISSED MEDICATION

If a student misses his/her medication, refuses to take it, or it is delayed in being administered, contact your supervisor or the school nurse in charge of the program.

DELEGATED MEDICAL PROCEDURES

Some medical procedures can be delegated to paraprofessionals if they are properly trained and routinely supervised by the nurse. Paraprofessionals should only perform procedures for which they have been trained and demonstrated competency.

PROFESSIONAL ETHICS

To protect the rights of students and families, paraprofessionals must be aware of and practice appropriate ethical behavior. They must maintain confidentiality and protect and promote the rights of students' dignity, privacy, and respect. Paraprofessionals must also demonstrate honesty, loyalty, dependability, cooperation, accountability, and a willingness to learn. The

following is a suggested code of ~~Ethics~~ethics for paraprofessionals:

- Engage only in non-instructional and instructional activities for which you are qualified and trained
- Do not communicate progress or concerns regarding students to parents, community members, or school staff not involved with the students. Discuss student progress, programming, etc., only with the supervising teacher in an appropriate setting
- Refer concerns expressed by parents, students, or others to your supervising teacher or administrator
- Recognize that the supervisor has the ultimate responsibility for instructions and management, and follow his/her prescribed directions.
- Express differences in opinion with supervisor, only when students are not present
- Discuss work-related problems only with appropriate personnel
- Do not engage in discriminatory practices based on a student's handicap, race, sex, culture, or religion
- Be a positive role model
- Follow all district and building policies set forth by administration and school board
- Accept responsibility for improving your skills
- Represent the school in a positive manner

TIPS FOR THE PARAPROFESSIONAL

1. Do not let the student become overly dependent on you. The less work you do for the learner, the better. A successful paraprofessional will guide the student to the correct answer without giving the answer to help the student develop independence and learning skills.
2. Spend time asking questions, listening, writing, and helping students to think for themselves.
3. Be sensitive to the emotional, psychological, social problems that may be affecting the performance and behavior of the student. Bring them to the attention of the case manager, school principal, social worker, or building special education coordinator. Do not be afraid to ask for help!
4. Avoid assuming the role and responsibilities of the professionals and parents. Your job is to support these people, not replace them.
5. Be patient and reinforce positively when a goal is met. Progress may be slow, but always point out the accomplishment no matter how small.
6. Be sensitive in communicating with your students. Most importantly, be a careful listener.
7. Avoid being judgmental or stereotyping students. Each student is different.
8. Be realistic in expectations. If you expect little, little will be produced. Let the learner know you have high, but realistic expectations. With encouragement the learner will come to share your expectations.
9. Teach problem-solving strategies whenever possible.
10. Encourage students to be responsible for listening to direction and encourage them to ask questions for clarification.
11. Assist and praise all students in the class, not just the student you are helping. However, keep in mind your first responsibility is to the Special Education Student(s) in the class.
12. Remember, you are a model of appropriate behavior.
13. Encourage all students to accept, support, trust and assist each other.
14. Allow students to make as many decisions for their self as possible. Give them choices.
15. Treat all students with respect.
16. Respect each other as colleagues, co-workers, and professionals. Speak positively about

each other and the school. Do not share conflicts with coworkers with people other than your supervisors.

17. Maintain a professional, but supportive role with students.
18. Avoid becoming overly protective. Students may initially require intensive support, but your goal needs to be to “fade” to a coaching and/or indirect role as soon as possible.
19. Carry your share of the load in the classroom. This is particularly important in rooms that are physically demanding.
20. Confidentiality is an absolute requirement. Only share information with people in the school who have direct involvement with a child, and then only the information that the person needs to know to work with the child. Being a school employee does not entitle people to information (see confidentiality).

GUIDE FOR PARAPROFESSIONALS

A clear delineation of roles of the teacher and the paraprofessional is an important element of a successful program. Identification of teacher and professional roles insures adherence to ethical and legal requirements and serves as a guide in supervision and evaluation. Actual delivery of instruction to the student may be carried out by the paraprofessional under supervision of the teacher.

A Paraprofessional MAY:	A Paraprofessional May NOT:
Be left alone in a classroom for brief periods of time when teacher is gone.	Be used as a substitute teacher
Work without direct supervision with individuals or groups, on concepts introduced by teachers.	Provide instruction without teacher direction.
Have specific instructional and management responsibility, under direction of certified staff.	Be assigned to attend student staffing in lieu of teacher.
Be involved in student staffing, if requested.	Supervise other staff.
Support inclusion of students in regular class assignments and tutoring.	Assign grades, write programs.
Be assigned record keeping tasks as relevant to classroom management.	Make parent contact or share information with non-school people, unless authorized.
Be reassigned within building/district by administration	Make major program decisions.
Work with a variety of disabilities.	Have access to files, unless authorized.
Assist in transportation supervision of students	Transport students in own vehicles

Tasks a Paraprofessional can do while Assisting in the General Education or Special Education Classroom.

Whole Group Instruction	Independent Work Time	Group Work Time	Testing
Cue students to take notes and make sure they continue to do so throughout the instruction.	Make sure students are on task and productive.	Make sure students get in a group.	Reading test allowed in arranging for them in advance.

Facilitating spelling, organization, on task behavior, etc.	Prompt/cue skills – skimming a textbook, using bold words, index, etc.	Assist with individual tasks – offering help multiple times and with different methods.	Providing a framework or outline when answering essay questions.
Charting student on-task behavior, assignment completion, etc.			
Talk with the teacher about your physical role in the classroom. Find out if you should be seated next to specific students, if you should walk around during the whole group, small group, or independent work time to check on on-task behavior, or offer assistance, etc.			

POSITIVE BEHAVIORAL MANAGEMENT AND STRATEGIES

Behavior management is complex and unique to each individual. In each classroom environment, staff will manage behavior in a variety of ways. Paraprofessionals, in order to reinforce consistency, need to model the classroom management systems defined by each classroom teacher. When further intervention is necessary, the regular classroom teacher and special education teacher will plan appropriate interventions for the paraprofessional to implement. It is important for paraprofessionals to define their roles with the teacher in each classroom setting.

Attention - It is vital to have the attention of the end individuals who are working with. It is okay to wait until the group is quiet and it's sending to you before you begin activity.

Instruction – It is likely that the student is displaying charging papers, because they do not know how to do it correctly. We must teach our students how to display the correct behaviors.

Monitoring - The key word here is to circulate. Staying in one place is not an effective way to deal with challenging behaviors.

Modeling – Students become confused as to what appropriate behaviors are expected if they witness inappropriate behaviors by adults in the environment.

Non-Verbal Cueing – Non-verbal cueing is less intrusive than verbal cueing. Especially in a whole classroom setting. Non-verbal cueing can be facial expressions, body posture, proximity, and hand signals.

Environmental control – Behavior problems can be remedied by changing the environment in which the behaviors occur. Providing structured activities on the playground significantly reduces the number of problem behaviors in this setting.

Low Profile Intervention – Intervention does not need to be a big production. Confrontation is NOT an effective form of discipline. In fact this option often escalates the behavior.

There are a number of **general management strategies and tips** that professionals will want to be familiar with no matter what setting they may be working in.

- **Build rapport** with students. Students who have a positive view of you will be more likely to cooperate. It is important to establish Rapport while still maintaining an appropriate relationship. You can have a positive relationship with a student without being a friend.

- **Praise** is immediate, specific, deserved, and related to behavior. Very professional and should praise appropriate behaviors by describing the appropriate behaviors they see students perform.
- **Positive reinforcement** involves the presentation of a reward (smiles, stickers, points, ect.) following students performing a particular charge of the payment. The reward is designed to increase the frequency of a desired response and works particularly well with elementary students.
- Do not take a student's behavior personally. Challenging behaviors are not a personal attack.
- Never force an issue with a difficult student in front of the class. The student who displays challenging behaviors will feel more challenged when the issue is forced. Take a break and visit the subject again when all parties involved are calm and thinking clearly.
- **Consistent consequences.** Every consequence not carried out weakens the adult status. Idle threats are not considered positive practice. Students can pick these out and will challenge them.
- **Avoid sarcasm.** In the context of behavior management, sarcasm is completely inappropriate. It is not only rude and disrespectful.
- Do not label students as "bad". No student is bad. All students have positive attributes.
- **Set high standards.** Students will perform to the level of our expectations. If you expect more, the student will produce more.
- **Be consistent.** If you saw it, mean it, and treat all behaviors the same way for each student.
- **Keep Calm.** Students will adjust their behaviors to your demeanor.
- Be aware that **prevention is proactive** and **intervention is reactive**. The goal is to prevent problem behaviors before they occur.
- **Deal with problems immediately.** If you wait too long to intervene, the teachable moments are gone.

CONFIDENTIALITY/DATA PRIVACY

Confidentiality can be extremely difficult to maintain. Often situations arise that are unexpected or appear harmless if information is shared. Your assistance in maintaining the confidentiality of all reports is extremely important. It is imperative for you not to discuss or disclose any information about a student, with anyone who does not have direct responsibility for that child.

Remember, many times breaches of confidentiality are not malicious, but still need to be avoided. A concerned relative, neighbor, or staff member may just wish to chat and show concern. You need to tell the person you cannot discuss the children you serve, and refer them to the teacher, or building principal.

When you are being asked to share information about students, there are some basic questions for you to consider:

1. Do they have the right to know?
2. Do they have the need to know?

Remember: Oral disclosure is disclosure. What you say can carry the same responsibility as written communication.

A very limited number of people have access to student files and data. Supervising teacher will decide and share information with you that is necessary for your work with that child. It is not necessary that every person working with a child have full access to everything in the file.

MANDATED REPORTING

All public school employees have a responsibility to be mandatory reporters under the Abused and neglected Child Reporting Act. Any school employee who suspects a child is experiencing abuse of any form must report that abuse to the local social services. Once reported, the Social Services will do an investigation.

Minnesota Statute 626.556- Reporting of Maltreatment of Minors

All school employees are Mandated Reporters. Child Protection Assessments are conducted in response to reports of children being abused or neglected by caregivers. Family Services and Law Enforcement are required by law to cross report any child protection reports. The purpose of child protective services is to help protect children from physical abuse, neglect, and sexual abuse. The goal is to help families get the services needed so children do not need to continue to be abused or neglected.

How do I Report Abuse or Neglect? Call Cass County Social Services: 218-547-1340 or after-hours emergencies call 218-547-1424 if you believe that a child is being hurt or neglected. Doctors, school employees, and ministers, are required by law to report suspected child abuse or neglect. Other people, such as neighbors or relatives are encouraged to also report if they think a child is being abused or neglected. Please contact your supervising teacher or principal to complete a Suspected Child Abuse/Neglect Report.

What will happen when I call? County child abuse staff will decide if your concerns fit within the statutory definitions of abuse or neglect. If so, a child protection worker will meet with the family to assess the situation. The name of the person making the report will not be shared with the family, unless the reporter agrees or the court compels it. Child protection will work with local law enforcement and individuals who know the child, such as doctors or teachers if necessary.

LIABILITIES

School districts accept the responsibility for providing the safety and welfare of all students. Certain risks are encountered by students, staff administration, and the district, in the educational process. As students access various learning environments and as a variety of human resources are used in the educational process, it becomes increasingly important to exercise prudent judgment, ensure appropriate levels of supervision, and maintain accurate record keeping. To minimize the risks associated with instruction, it becomes incumbent for each school staff to:

- Fully understand and apply safety procedures.

- Adhere to the instructional plan based on the student's IEP, IFSP, or IIP
- Maintain appropriate records and documentation relative to student performance, behavior, and medical
- Effectively communicate with appropriate staff regarding students
- Be aware of physical, behavioral, emotional, and educational needs of students affecting safety/welfare.
- Be properly trained by certified staff for procedures requiring specific skills.
- Check with supervisor regarding any procedures that could involve liability of violation of student plan
- Report accidents, problems, immediately to supervisor and/or building administrator
- Be informed and follow district/building policies

DISABILITY DESCRIPTIONS/DEFINITIONS

AUTISM SPECTRUM DISORDERS (ASD)

Autism Spectrum Disorders mean a range of pervasive developmental disorders that adversely affect a student's functioning and result in the need for special education instruction and related services. ASD is a disability category characterized by an uneven developmental profile and a pattern of qualitative impairments in several areas of development with onset in childhood: social interaction, communication, or restricted repetitive and stereotyped patterns of behavior, interests, and activities.

DEAF AND HARD OF HEARING (D/HH)

This disability means a diminished sensitivity to sound, or hearing loss, that is expressed in terms of standard audiological measures. The hearing loss affects the student's educational, communicative, or social functioning and results in the need for special education instruction and related services.

DEVELOPMENTAL COGNITIVE DISABILITIES (DCD)

This disability category includes students with mild to profound delays in general intellectual functioning, resulting in or associated with concurrent deficits in adaptive behavior that requires special education and related services. Developmental Cognitive Disability has two categories: a. mild to moderate mentally impaired and b. severe to profound mentally impaired.

DEVELOPMENTAL DELAY (DD)

Students with Developmental Delays are served through the Early Childhood Special Education program (ECSE). Special Education and related services are provided to children birth to age 7 who have a substantial delay in development or have an identifiable sensory, physical, mental, or social/emotional condition or impairment known to hinder normal development.

EMOTIONAL/BEHAVIORAL DISORDERS (EBD)

Students identified with Emotional or Behavioral Disorders exhibit established patterns characterized by one or more of the following behavior clusters that affect educational performance:

- A. Severely withdrawn or anxious behaviors, pervasive unhappiness, depression, or wide mood
- B. Severely disordered thought processes manifested by unusual behavior patterns,

SPECIFIC LEARNING DISABILITIES (SLD)

A specific learning disability means a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written. Learning disabilities may be exhibited in one or more areas: oral expression, listening comprehension, mathematical calculation and/or reasoning, basic reading skills, reading comprehension, and written expression. This disability category does not include learning problems that are primarily the result of visual, hearing, or motor disabilities, cognitive impairments, emotional or behavioral disturbances, or environmental, cultural, or economic disadvantages.

OTHER HEALTH DISABILITIES (OHD)

Other Health Disabilities include a broad range of medically diagnosed chronic or acute health conditions that may adversely affect academic functioning and result in the need for special education instruction and related services. The decision that a specific health condition qualifies as a health disability will be determined by the impact of the condition on academic functioning rather than by the diagnostic label given the health condition.

PHYSICALLY IMPAIRED (PI)

Physically impaired means a medically diagnosed chronic, physical impairment, either congenital or acquired, that adversely affects physical or academic functioning and results in the need for special education and related services.

SPEECH AND LANGUAGE IMPAIRMENTS (SLP)

A speech or language impairment means a communication disorder, such as stuttering, impaired articulation, language impairment, or voice impairment, which adversely affects a student's educational performance. Educational Speech/Language Pathologists provide specialized therapy for students with speech and/or language impairments.

TRAUMATIC BRAIN INJURY (TBI)

This disability category includes students with an acquired injury to the brain caused by an external physical force, resulting in total or partial functional disability or psychosocial impairment, or both, that may adversely affect a student's educational performance and result in the need for special education and related services.

VISUALLY IMPAIRED (VI)

This disability category involves a verified visual impairment accompanied by limitations in sight that interfere with acquiring information or interaction with the environment to the extent that special education and related services are needed.

WORKING WITH CERTIFIED STAFF

If the paraprofessional is in an educational setting, they may work directly or come in contact with some of the following professionals:

GENERAL EDUCATION TEACHER

The role of the general education teacher is largely teaching the regular class lessons, with necessary adaptations for the Special Education student. The paraprofessional may be responsible for adaption and explaining curriculum and assisting students with the regular classroom or in small groups to complete assignments.

SPECIAL EDUCATION TEACHER

The Special Education teachers have the background and training to set up specific plans to meet individual students' educational needs. He/she may be the paraprofessional's immediate supervisor and will determine the daily/weekly responsibilities the paraprofessional will perform within the regular classroom, special education classroom, or small group.

SPEECH/LANGUAGE PATHOLOGIST

The Speech/Language Pathologist provides assessment and intervention services to students with articulation, language, voice and fluency disorders.

DEVELOPMENTAL ADAPTIVE PHYSICAL EDUCATION TEACHER (DAPE)

The Adapted Physical Education teachers have special training in designing motor programs and exercises to meet the unique physical needs of individual students. This service is frequently provided to students with physical disabilities and a paraprofessional will often assist in delivering these services (under the direction and supervision of the DAPE teacher).

OCCUPATIONAL/PHYSICAL THERAPISTS

These skilled professionals collaborate with staff to design procedures that will help students become more independent.

- **Physical Therapists** work with ambulation (walking), modalities (senses) and cardiorespiratory functioning.
- **Occupational Therapists** work with fine motor and perceptual skills, sensory integration, cognitive and psychosocial aspects of performance, and adaptive devices related to daily activities.

LICENSED SCHOOL NURSE

The school nurse is responsible for dispensing medications and assisting in monitoring and meeting a student's medical needs. The nurse may delegate some of these responsibilities to a paraprofessional, as long as the nurse provides adequate training and supervision.

SCHOOL SOCIAL WORKER

The school social worker meets with students and parents as well as school staff to help improve any social emotional or behavior difficulties which interfere with a student's school performance. Through individual conferences, small group meeting and classroom presentations they work to improve self-esteem, friendship and personal skills for all students.

SCHOOL PSYCHOLOGIST

The school psychologist provides educational assessment for students with special needs in the areas of academic concerns, social/behavioral and cognitive functioning. In addition, the psychologist provides consultation to staff, parents and the team regarding educational program issues.
