

Food Service Report

JANUARY 2017

Claims;

- Our reimbursement for January is \$118,320.77. We had 13 days that we served both lunch and breakfast. Last year our total was \$171,130.96 and we served on 18 days. The snow day brought us down this year. We had a daily average of \$9,101.60 so if we would have not had any snow days our reimbursement would have been \$172,930.40.

Projects;

- The maintenance department has started taking down the walls and ceilings on the east side of our warehouse so that we can get more freezer space and more dry storage. We hope to have this completed before the end of this school year.

We would like to let you know that we gave one of our used ovens to the Rupert senior center and we will probably be giving them one more to use for parts.
