## Personal Protective Equipment (PPE)

Policy Series: 5000 Personnel

Policy No. 5125

### Purpose

10  
11  
12  
13  
14  
15  
16

The Board has determined that employees of the District must take accountability for assessing workplace hazards and wearing personal protective equipment (PPE). This equipment will be provided by the district as determined by risk management and must be up to date, maintained and comply with current codes and legal requirements

### Protective Equipment Assessment

18  
19  
20  
21

Each employee who works in any area of a District building or on District property that is around or uses electric or power operating equipment or chemicals of any nature shall:

22  
23  
24  
25  
26  
27

1. Assess the dangers and hazards present in the working environment;
2. Submit a written assessment to their supervisor of the dangers and a plan as to safety precautions and to specify the PPE that will be worn whenever the chemicals are deployed or the power equipment is used.

28  
29  
30

### Training

31  
32  
33

As a part of orientation of employees who encounter hazards in the workplace, the head custodian of each school shall train employees in the following:

34  
35  
36  
37  
38

1. When PPE is necessary;
2. What PPE is necessary;
3. How to properly put on, wear, take off and adjust the PPE;
4. The limitations of the PPE;
5. The proper care, maintenance, useful life, and disposal of the PPE.

39  
40

41 **Eye and Face Equipment**

42

43 Employees must wear eye or face protection when they would otherwise be exposed to eye or  
44 face hazards from flying particles, excessive dust, molten metal or welding sparks, liquid  
45 chemicals, acids or other caustic liquids, chemical gases or vapors, or potentially injurious light  
46 radiation.

47

48 Employees must wear eye protection that provides side protection when there is a hazard from  
49 flying objects, particles or splashing liquids. Detachable side pieces are acceptable.

50

51

52 **Prescription Lenses Notification and Responsibility**

53

54 Employees who wear prescription lenses while engaged in operations that involve eye hazards  
55 must wear eye protection that incorporates the prescription in its design, or wear eye protection  
56 that can be worn over the prescription lenses without disturbing the proper position of the eye  
57 protection.

58

59

60 **Head Protection**

61

62 Employees must wear head protection when working in areas where there is a potential for  
63 injury to the head from falling objects. In addition, head protection must be worn near exposed  
64 electrical conductors which could contact the head.

65

66

67 **Foot Protection**

68

69 Employees must wear foot protection when working in areas where there is a danger of foot  
70 injuries due to falling or heavy rolling objects, or objects that may pierce the soles of shoes or  
71 where the employees' feet are exposed to electrical hazards.

72

73

74 **Hand Protection**

75

76

77 Employees must use appropriate hand protection when employees' hands are exposed to  
78 hazards such as those from skin absorption of harmful substances, severe cuts or lacerations,  
79 abrasions, punctures, chemical burns, thermal burns and temperature extremes.

80

81

82 **Employee Responsibilities**

83

84 Each employee has the duty upon entering the workplace to examine it carefully to determine if  
85 it is safe, to assess dangers, and to determine appropriate measures to be taken to maintain a  
86 safe working environment. After such an examination, it is the duty of each employee to make  
87 the place, tools and equipment safe. If the place and equipment cannot be made safe, then the  
88 employee must immediately report the unsafe place, tools, equipment or conditions to his or her  
89 immediate supervisor.

90  
91

## 92 **Compliance with Governing Rules**

93

94 An employee has a duty to:

95

96 1. Comply with all safety rules of the District and all federal and state laws and rules which  
97 are applicable to the employment;

98

99 2. Use safety devices, products, or tools to enhance general safety requirements that the  
100 District identifies to provide employees with a greater level of protection;

101

102 3. Be familiar with and comply with proper health and safety practices;

103

104 4. Use the required safety devices and proper personal protective equipment provided;

105

106 5. Follow all safe work procedures outlined by the District; and

107

108 6. Report all accidents to his or her immediate supervisor immediately.

109

110

## 111 **Injuries at Workplace**

112

113 In the event that an employee is injured at District property within the scope of employment, and  
114 it is determined that the injury resulted from the employee's neglect of any of the requirements  
115 set forth in this policy, the employee will be subject to willful misconduct reduction of 15%  
116 pursuant to [Utah Code § 34A-2-302\(3\)\(a\)](#) whenever the injury is caused by the willful failure of  
117 the employee to:

118

119 1. Use safety devices when provided by the District; or

120

121 2. Obey an order or reasonable rule adopted by the District for the safety of the employee.

122

123

## 124 **Use of Controlled Substances Leading to Injuries on the Job**

125

126 Disability compensation shall not be paid to any employee when a major contributing cause of  
127 the employee's injury is the employee's:

128  
129  
130  
131  
132  
133  
134  
135  
136  
137  
138  
139  
140  
141  
142  
143  
144  
145

1. Knowing use of a controlled substance for which the employee did not obtain a valid prescription;
2. Intentional abuse of a controlled substance in excess of amount prescribed or use in an otherwise abusive manner; or
3. Intoxication with a blood alcohol level of .08 grams or greater as shown by a reliable test.

Disability compensation may be reduced when any of the above are a contributing cause of the injury but not the major contributing cause.
