

## Facts Sheet: R-P Banners and Trophies

Discussions started in August 2016 with coaches, and we had multiple meetings (Feb, April, and June 2017) to get their input on how to best handle the trophies and banners as we prepared to move to the new building. The goal was to find the best way to recognize our past success, and yet also have a plan that will account for our future success as well. Based on their direct input, here is the plan that we came up with:

- All trophies earned prior to consolidation are going to the Rushford and Peterson Historical Societies.
- Each team that earned a post-season award will be displayed in the trophy cases at the new school.
  - \* Each team will only have the largest award displayed. For example, if a team won the Sub-Section and Section, and then finished 3rd at State, only the State trophy will be displayed.
  - \* We currently have 242 team trophies/plaques displayed in the new building.
- Rather than individual banners for each activity each year, all post-season championships will be recognized on new Activity Banners and displayed in the HS Gym. This format is what many local schools have already transitioned to, and it will allow all activities to be recognized.
  - \* There were 115 team banners in the old gym, but 14 were from pre-consolidation and 11 were for non-championships. There were 90 Championship banners displayed, but not all activities were displayed.
  - \* Prior to this school year, we have earned 161 Conference, Sub-Section, Section, and State Championships since the 1990-91 season. The new format will allow us to recognize all of them, as well as be able to add to them in the future.
- The Activity Banners will be hung along the north wall of the gym, while the 10 State Championship Banners will be displayed on the east wall. Samples of each are shown below:
