

Board Member Vision

Background:

To guide the efforts of the superintendent and the administrative team, I ask each board member to take a moment to philosophize on how they envision the district.

Could you please respond to each of the following questions:

- A. What are the most positive things we have intended to do over the past three years?
- B. What positive but unintended outcomes resulted from our efforts over the last three years?
- C. Are there negative things that have come from our efforts, whether intentional or unintentional, and do we need to work to improve upon them?
