

**GOVERNING BOARD AGENDA ITEM**  
**AMPHITHEATER UNIFIED SCHOOL DISTRICT NO. 10**

---

**DATE OF MEETING:** June 6, 2017

**TITLE:** Approval of New Position – Software/Database Application Specialist (replacing Manager of Student Information Services)

---

**BACKGROUND:**

Currently, the District's Manager of Student Information Services (SIS) oversees and manages one single application – the student data management system. The District would like to replace this position with a new position, Software/Database Application Specialist, which will expand the responsibilities to all self-hosted applications in the District rather than focusing on a single application.

This position will be classified as professional-exempt and will be paid from the Professional Exempt salary schedule versus the Administrator salary schedule where the Manager of SIS is currently paid.

A copy of the job description is attached.

---

**RECOMMENDATION:**

It is the recommendation of the administration that the Software/Database Application Specialist be approved.
