INSTRUCTIONAL PROGRAM HEALTH EDUCATION

OCTOBER 20, 2025

The Board of Education establishes that the providing of consultative and preventive health services, e.g. vision screening, is generally the responsibility of county government, and that the treatment of individual children is a parental responsibility. Wayne County Health and Human Services is a resource the school district will utilize to provide support to staff, families and students, as needed. The school district will provide health education based on content standards and expectations from the Michigan Department of Education.
