

Memo

To: Board of Trustees
From: Rob Sauer, Superintendent
Date: August 4, 2015
Re: Superintendent's Board Report

ISAT by Smarter Balanced

- As you can see in the principal's reports, the ISAT scores have been received. We will be putting together communication for parents about their student's scores and determining the best way to get that information out to them. As anticipated, our scores are lower than in past years. We will review the test results and share with the staff members in each building as well. We will continue to compare what is taught with what is tested as we prepare our students for the more rigorous test.

IASA Conference

- The administrators will be attending the Idaho Association of School Administrators Conference in Boise August 5-7. This is an annual conference that we attend.
