Background Information

Hamilton Counseling (HCC) is a trusted provider of comprehensive mental health services, offering expertise in addressing the growing emotional and psychological needs of students and their families. Partnering with HCC aligns with the district's commitment to supporting student well-being, academic success, and long-term personal development.

HCC also provides essential staff training, equipping school personnel with the tools to identify and support students needing mental health or Special Education services. With a focus on confidentiality, accessibility, and timely service delivery, HCC ensures that students and families can easily access care when they need it most.

This partnership has been in place for the last 10 years, primarily as a community partner for outside counseling referrals. However, the in-school counseling services they currently offer (MOU renewal) have been in place since last year.
