RE: Second Internet Connection Memo

.....

The District's reliance on Internet connectivity has reached a level where a redundant Internet connection is critical to not only keep students and staff connected, but to keep our integral systems such as our phone system available.

After reviewing proposals from different vendors, Metronet's proposal was selected for recommendation as our second Internet provider. The proposal is for a 5 year term at a cost of \$750/month for a 5Gb Internet connection.
