OVERALL STATE RATING HOW ARE STUDENTS AT THIS SCHOOL PERFORMING COMPARED TO THOSE AT OTHER SCHOOLS?

The overall state rating is intended to summarize this school's particular successes and challenges. It is based on a combination of up to five factors. Three of these factors come from standardized test scores in reading and math: student achievement, student growth, and the growth of underserved subgroups. High schools are also rated on the overall graduation rate for the school and the graduation rates of underserved subgroups. Please be aware that this rating is based mainly on high-stakes testing and accordingly, represents a limited view of student performance. Other aspects of this report card are designed to put this rating in the proper context.

Compared to all schools statewide in 2013-14, this school is rated as Level 4.

Level 1 = Falls into the bottom 5% of schools

Level 2 = Falls between 5% and 15% of schools

Level 3 = Falls between 15% and 44% of schools

Level 4 = Falls between 44% and 90% of schools

Level 5 = Falls into the top 10% of schools

Compared to high schools with similar student demographics in 2013-14, this school's rating is above average.

Below Average **About Average**

Below average = Falls into the bottom third of comparison schools

About average = Falls into the middle third of comparison schools

Above average = Falls into the top third of comparison schools

This school participated in the Smarter Balanced field test. Interpret the overall school rating and the like-school comparison rating with caution.
