Note: Trustees will remember and note there will, most likely, be additional August budget workshops related to adoption of the 2017-18 budget and tax rate. The times and dates of these meetings is to be determined.

#### **B. Bond Steering Committee Update**

Either Administration or a representative of the 2017 Bond Steering Committee will be present to provide an overview of the Bond Steering Committee's work to date.

#### **C. Large Committee Work for 2017-18**

Administration will be bringing a request to Trustees to seat a committee for the purposes of providing feedback to Trustees related to designation Aledo ISD as a "District of Innovation". This committee's work, if the committee is approved by Trustees, will entail collecting feedback from a large committee comprised of parents, staff, business representatives and other parties. This feedback will develop into an item to be formally considered by Trustees in the form of an application for status as a District of Innovation. The application, if approved by the Board, is submitted to the Commissioner of Education for his final review and potential approval. This committee's work will be in the fall of 2017.

The second large committee is the work associated with update of the Aledo ISD Strategic Plan. This committee will be seated in the spring of 2018 and will also be brought to Trustees for review and consideration. This plan is typically adopted on a once every three year format.
