

TRANSPORTATION BOARD REPORT FOR THE MONTH OF OCTOBER 2018

SUBMITTED BY: WAYNE HALL

We had our first bad snow of the school year and we had a lot parents calling to see if buses were running and if there was going to be school we reassured them that everything was running but some out of town may be a little late and that there was school. We had a hard time getting gravel for the icy roads around the district. The snow caught everybody off guard.

We purchased 2 vehicles for the district and one of the vehicles was faulty from the time we got it so we sent it right back to the dealer and they offered to fix or give another vehicle.

The mechanics been busy servicing the district vehicles and buses keeping them up to date. We had some students cutting the back of the seats again in some of the buses. We let the parents know they will have to pay for the seats because we have to change the whole seat cover sometimes.

We went to Missoula to pick up an activity bus. The turbo went out in it. I-State had to fix it. The bus is up and running again.

We had another activity bus air valve not opening to the booster when you step on your brakes only one side was grabbing. We have to get it off so we can take it to Cutbank and order another one.

We had a total of 46 activity trips for the month of October 2018 and This concludes our report for this month.
