

**Proposal for Rossville-Alvin CUSD #7**

**Server Infrastructure:**

The server infrastructure is a critical part of any network. QNS' goal is to keep this equipment functioning at optimal levels at all times. As technology changes, the demand on this equipment increases. We have assessed the equipment currently in use and are proposing the following:

Equipment	Quantity	Cost	Total Cost
Credit - Synology NAS	3	\$ -100.00	\$ -300.00
Synology DS918+ (4x 8TB)	1	\$ 2,003.29	\$ 2,003.29
		Total	\$ 1,703.29

*new back up go - maybe in the future (infrastructure)*

**Computer Equipment:**

QNS' goal is to keep every computer running at peak performance. As technology changes and applications become more complex, some computers cannot meet the demand. During the inventory and assessment process, we identified these computers and suggest the following action:

Equipment	Quantity	Cost	Total Cost
Off Lease Dell Optiplex (I5 3.1Ghz, 8GB, 3YR, WIN10PRO)	20	\$ 250.00	\$ 5,000.00
		Total	\$ 5,000.00

*Replace old - 2003 ish / mostly st. computers.*

**Grand Total (1 Year):** \$ 6,703.29

1.5% finance charge applied for multi-year agreements listed below:

**2 Year Plan:** \$ 3,401.92/year

**3 Year Plan:** \$ 2,267.95/year

**Additional Notes:**

Above you will find your district's annual recommendations for technology upgrades and replacements. With order processing and shipping times being out of our control, we cannot ensure that orders placed after July 1 will be installed prior to the start of school. Due to the volume of requests in August and early September, few if any projects can be completed during this time. Projects will begin again in mid-late September or early October and will be completed as promptly as possible. We thank you for your patience.

**Other Costs:**

*\* Requesting Additional Access Points.*

**Quality  
Network  
Solutions**
