Maintenance Report 02.22.23

The cold weather along with the snow the past few weeks have taken up a lot the departments time. From plowing, shoveling pathways and keeping walkways salted and free of ice. Bus routes were slowed down but thankfully all transportation continued safely.

Cummins of Anchorage last week traveled here and replaced all warranty related parts on the school buses. After performing diagnostic on the buses there are a few parts that we have ordered to get the buses back on the road and in good safe operating condition. We order EGR coolers and fuel injectors. As soon as those items are replaced and installed, we will have the buses back on the road. The lead time on the parts are three to four weeks.

The department hires a new full-time employee, Brent O'Conner, for maintenance/ bus driver. We are looking forward to having the extra assistance in our day-to-day maintenance throughout the district and the additional bus driver.

Spring break is approaching, and we have been compiling a list of projects to complete. Some are weather dependent, so we are hoping for Spring to bring some warmer weather.

If there are any questions regarding district maintenance, fleet maintenance or janitorial items, please don't hesitate to ask and or email me.

Daniel Nelson
CCSD Maintenance Director
