Below is a document that was handed out at a meeting attended by representatives from Sul Ross, Southwest Texas Junior College, Region 20, and area superintendents and principals. The information was compiled by SWTJC and shows data from the 2007 TAKS testing. This information was gathered to show which high schools were best preparing their students for post-secondary education. Needless to say Mr. Burks and I were very proud our faculty and students.

Principal's General Narrative:

I and all the members of the high school and junior high appreciate the time and effort, that school board members give on our behalf. We recognize that without the great leadership from the school board and Mr. Burks our direction of continued and greater success would not be possible.
