

**Board Meeting Date:** 9.9.24

**Title:** Electronic Communication Devices

**Type:** Discussion

**Presenter(s):** Nate Swenson, Assistant Superintendent

**Description:** The purpose of the discussion is to provide a summary of what will be brought to the Board in November regarding the implementation progress of the updated K-12 cell phone (Electronic Communication Device) protocols and procedures.

**Recommendation:** No recommendation is being asked of the Board at this time.

**Desired Outcome(s) from the Board:** Please bring forth questions you may have of the presenter.

**Attachments:** IROD discussion

**Topic:** Preparing for Electronic Communication Device Board Report

I   R   O	Information - To prepare for creating an Electronic Communication Device policy, feedback will be gathered from stakeholders to help assess the impact of the new Electronic Communication Device protocols and procedures. We will gather input from families, admin assistants, staff members, students, administration, and our Emergency Management Safety Coordinator. In addition, we will collect behavior data detailing the number of infractions that have occurred during the school year.			
	Initial Reactions:			Anything Else?
	Options - in no particular order	Pros	Cons	Anything Else?
	1. Survey families	Ensures stakeholder voice by garnering perspective from families		
	2. Survey Admin Assistants	Ensures stakeholder voice by garnering perspective from a variety of staff		
	3. Survey Staff Members	Ensures stakeholder voice by garnering perspective from a variety of staff		
	4. Survey Students	Ensures stakeholder voice by garnering perspective from students		
	5. Emergency Mgmt Safety Coordinator Review and Recommendations	Ensures we look at new protocols through multiple lenses to ascertain if we are missing key elements		
	6. Cell Phone Infraction Data	Provides mgmt with a whole system view for adherence to new protocols and allows for adjustments if necessary
