STUDENT LAST DAY

With the new rule eliminating 180 student contact days and emphasizing adequate minutes… we have ample minutes to approve the following schedule. (I have gone back and forth on student contact days… but think we have an opportunity to kill 2 birds with one stone… Let kids out on time and have extra training time to complete tasks.)

June 6: Last day for students (As original calendar planned)

June 9-11: Inservice days to be used as follows:

1. Curriculum Companion training – we are converting Eclipse to CC.
2. Final SLO reviews and staff work on Effective Educator Program.
3. RtI: work with staff on implementation and use.
4. Accelerated Reader Training – Webinars (3 hrs) – (use for summer school- New Program)
5. Elem Typing – program options-staff responsibilities
6. Fast Forward Training (Increase use for summer school-currently used during school year)

When approved by the board, Michelle & I will work out a training plan for the extra June inservice days.

June 12: Last day for teachers.

OR

June 10:   is Students' last day

June 11:   Curriculum Companion Training- work on program

June 12:   Teacher last day
