

## Monthly Report for September 2021

The month of September has been a busy month, custodians have been working hard and making sure each building they are assigned to get disinfected and deep clean. Wiping door knobs, desk and any area that can be touch by any students and teacher. They also disinfect with the Mister Machine 3 days out of the week. (Monday, Wednesday and Fridays) and if a student gets sick and sent home, the custodian available goes and disinfects that classroom immediately. That week school was shut down, we cleaned all the buildings. We have hired a custodian to replace Mrs. Willis (Elementary). For right now I'm helping with cleaning in junior high and helping when someone is out.

Thank you  
Imelda Vela  
Custodial Manager
