Meridian CUSD 223

District Superintendent

Dr. Michael Plourde mplourde@mail.meridian223.org

Address

207 W Main St Stillman Valley IL 61084 (815) 645-2230

http://www.meridian223.org

District Provided Statement

Meridian CUSD 223 is an award-winning district in Ogle and Winnebago Counties, dedicated to empowering every student for success in a dynamic world. Our highly qualified and innovative staff delivers a comprehensive educational experience, balancing rigorous academic programming with robust opportunities in the arts, athletics, and career and technical education. We live our vision of small town values, world-class results.

About the Report Card

State and federal laws require public school districts to release report cards to the public each year.

The federal Every Student Succeeds Act requires that states annually assign schools a summative designation that meaningfully differentiates school performance based on multiple performance measures. All states were offered a waiver of this requirement for school year 2020-2021 due to the impact of COVID-19. For more information about Illinois' accountability system please visit www.isbe.net/summative.

For additional information, refer to the Public Business Rules for 2024 Report Card Metrics and the 2024 Glossary of Terms.

About the data

Academic progress data includes information regarding assessments, such as student participation rates, proficiency rates, and mean student growth percentile. Other information regarding academics may include certain touchstones, such as eighth-graders passing Algebra 1, graduation rate, and various advanced coursework information. Academic progress often is disaggregated further into demographic student groups.

ELA Proficiency - Overall

What is it?

This shows the percentage of students at each performance level after assessment for proficiency in English Language Arts (ELA). The federal Every Student Succeeds Act (ESSA) requires states to assess their learning standards for English/Language Arts (ELA), Math, and Science. Each state may also have a general assessment for the majority of its students, and an alternate assessment for the one percent of students with the most significant cognitive disabilities. The "overall" percentage is calculated by subject combining all tests.

ELA Proficiency - IAR

What is it?

This shows the percentage of students scoring at each of the Performance Levels for the Illinois Assessment of Readiness (IAR). Each Performance Level is a broad, categorical level defined by a student's overall scale score and used to report overall student performance by describing how well students met the expectations for their grade level/course. Each Performance Level is defined by a range of overall scale scores for the assessment. There are four Performance Levels for IAR assessments:

- Level 1: Below Proficient
- Level 2: Approaching Proficient
- Level 3: Proficient
- Level 4: Above Proficient

Students performing at levels 3 and 4 met or exceeded expectations, have demonstrated readiness for the next grade level/course and, ultimately, are on track for college and careers. Performance Level Descriptors describe the knowledge, skills, and practices that students should know and be able to demonstrate at each Performance Level in each content area and at each grade level/course.

^{*}indicates non-reported data.‡indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

ELA Proficiency - ACT Suite

What is it?

This shows the percentage and number of students scoring at each of the performance levels for the ACT Suite of assessments, which is the designated High School Assessment for Illinois. Students in Grade 11 and Grade 12 as required participate in the ACT with Writing, students in Grade 10 participate in the PreACT Secure, and students in Grade 9 participate in the PreACT 9 Secure. Each Performance Level is a broad, categorical level defined by a student's overall scale score and used to report overall student performance by describing how well students met the expectations for their grade level/course. Each Performance Level is defined by a range of overall scale scores for the assessment. There are four Performance Levels for ACT assessments:

- Level 1: Below Proficient
- Level 2: Approaching Proficient
- Level 3: Proficient
- Level 4: Above Proficient

Students performing at levels 3 and 4 met or exceeded expectations, have demonstrated readiness for the next grade level/course and, ultimately, are on track for college and careers. Performance Level Descriptors describe the knowledge, skills, and practices that students should know and be able to demonstrate at each Performance Level in each content area and at each grade level/course.

ELA Proficiency - DLM

What is it?

This shows the percentage and number of students scoring at each of the performance levels for the Dynamic Learning Maps Alternative Assessment (DLM-AA) for students with cognitive disabilities. DLM-AA results are not based on raw or scale scores; all data is based on diagnostic classification modeling. Standard setting allows us to look at patterns of number of linkage levels mastered across the tested Essential Elements, to which we can apply cut points to define categories of student performance. This performance are reported using the four Performance Levels approved by the consortium:

- Level 1 Emerging: The student demonstrates emerging understanding of and ability to apply content knowledge and skills represented by the Essential Elements.
- Level 2 Approaching Target: The student's understanding of and ability to apply targeted content knowledge and skills represented by the Essential Elements is approaching the target.
- Level 3 At Target: The student's understanding of and ability to apply content knowledge and skills represented by the Essential Elements is at target.
- Level 4 Advanced: The student demonstrates advanced understanding of and ability to apply targeted content knowledge and skills represented by the Essential Elements.

ELA Growth - IAR

What is it?

Student growth percentile (SGP) is a measure of student growth that compares a student's performance over time to that of their academic peers (e.g., students in Illinois who have the same scale score in the prior year). It includes the current year score and up to two prior years' scores allowing the growth percentile calculation to represent a true growth trend and not just movement up and down from year to year. Individual student growth percentiles range from 1 to 99. A score of 50 represents average or expected growth each year (or reflects the absence of directly comparable data from the previous year to use as a baseline for comparison.) These scores are averaged to create a school or student group mean student growth percentile (MSGP).

Math Proficiency - Overall

What is it?

This shows the percentage of students at each performance level after assessment for proficiency in Math. The federal Every Student Succeeds Act (ESSA) requires states to assess their learning standards for English/Language Arts (ELA), Math, and Science. Each state may also have a general assessment for the majority of its students, and an alternate assessment for the one percent of students with the most significant cognitive disabilities. The "overall" percentage is calculated by subject combining all tests.

Math Proficiency - IAR

What is it?

This shows the percentage of students scoring at each of the Performance Levels for the Illinois Assessment of Readiness (IAR). Each Performance Level is a broad, categorical level defined by a student's overall scale score and used to report overall student performance by describing how well students met the expectations for their grade level/course. Each Performance Level is defined by a range of overall scale scores for the assessment. There are four Performance Levels for IAR assessments:

- Level 1: Below Proficient
- Level 2: Approaching Proficient
- Level 3: Proficient
- Level 4: Above Proficient

Students performing at levels 3 and 4 met or exceeded expectations, have demonstrated readiness for the next grade level/course and, ultimately, are on track for college and careers. Performance Level Descriptors describe the knowledge, skills, and practices that students should know and be able to demonstrate at each Performance Level in each content area and at each grade level/course.

^{*}indicates non-reported data.‡indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

Math Proficiency - ACT Suite

What is it?

This shows the percentage and number of students scoring at each of the performance levels for the ACT Suite of assessments, which is the designated High School Assessment for Illinois. Students in Grade 11 and Grade 12 as required participate in the ACT with Writing, students in Grade 10 participate in the PreACT Secure, and students in Grade 9 participate in the PreACT 9 Secure. Each Performance Level is a broad, categorical level defined by a student's overall scale score and used to report overall student performance by describing how well students met the expectations for their grade level/course. Each Performance Level is defined by a range of overall scale scores for the assessment. There are four Performance Levels for ACT assessments:

- Level 1: Below Proficient
- Level 2: Approaching Proficient
- Level 3: Proficient
- Level 4: Above Proficient

Students performing at levels 3 and 4 met or exceeded expectations, have demonstrated readiness for the next grade level/course and, ultimately, are on track for college and careers. Performance Level Descriptors describe the knowledge, skills, and practices that students should know and be able to demonstrate at each Performance Level in each content area and at each grade level/course.

Math Proficiency - DLM

What is it?

This shows the percentage and number of students scoring at each of the performance levels for the Dynamic Learning Maps Alternative Assessment (DLM-AA) for students with cognitive disabilities. DLM-AA results are not based on raw or scale scores; all data is based on diagnostic classification modeling. Standard setting allows us to look at patterns of number of linkage levels mastered across the tested Essential Elements, to which we can apply cut points to define categories of student performance. This performance are reported using the four Performance Levels approved by the consortium:

- Level 1 Emerging: The student demonstrates emerging understanding of and ability to apply content knowledge and skills represented by the Essential Elements.
- Level 2 Approaching Target: The student's understanding of and ability to apply targeted content knowledge and skills represented by the Essential Elements is approaching the target.
- Level 3 At Target: The student's understanding of and ability to apply content knowledge and skills represented by the Essential Elements is at target.
- Level 4 Advanced: The student demonstrates advanced understanding of and ability to apply targeted content knowledge and skills represented by the Essential Elements.

Math Participation - ACT Suite

What is it?

Participation Rate is defined as the number of students who received participation credit for the state assessment divided by the number of students who were required to participate in the state assessment. No Participation Rate is defined as the number of students who did not receive participation credit for the state assessment divided by the number of students who were required to participate in the state assessment.

Math Growth - IAR

What is it?

Student growth percentile (SGP) is a measure of student growth that compares a student's performance over time to that of their academic peers (e.g., students in Illinois who have the same scale score in the prior year). It includes the current year score and up to two prior years' scores allowing the growth percentile calculation to represent a true growth trend and not just movement up and down from year to year. Individual student growth percentiles range from 1 to 99. A score of 50 represents average or expected growth each year (or reflects the absence of directly comparable data from the previous year to use as a baseline for comparison.) These scores are averaged to create a school or student group mean student growth percentile (MSGP).

Science Proficiency - Overall

What is it?

This shows the percentage of students at each performance level after assessment for proficiency in Science. The federal Every Student Succeeds Act (ESSA) requires states to assess their learning standards for English/Language Arts (ELA), Math, and Science. Each state may also have a general assessment for the majority of its students, and an alternate assessment for the one percent of students with the most significant cognitive disabilities. The "overall" percentage is calculated by subject combining all tests.

Science Proficiency - ACT Suite

What is it?

This shows the percentage and number of students scoring at each of the performance levels for the ACT Suite of assessments, which is the designated High School Assessment for Illinois. Students in Grade 11 and Grade 12 as required participate in the ACT with Writing, students in Grade 10 participate in the PreACT Secure, and students in Grade 9 participate in the PreACT 9 Secure. Each Performance Level is a broad, categorical level defined by a student's overall scale score and used to report overall student performance by describing how well students met the expectations for their grade level/course. Each Performance Level is defined by a range of overall scale scores for the assessment. There are four Performance Levels for ACT assessments:

- Level 1: Below Proficient
- Level 2: Approaching Proficient
- Level 3: Proficient
- Level 4: Above Proficient

Students performing at levels 3 and 4 met or exceeded expectations, have demonstrated readiness for the next grade level/course and, ultimately, are on track for college and careers. Performance Level Descriptors describe the knowledge, skills, and practices that students should know and be able to demonstrate at each Performance Level in each content area and at each grade level/course.

^{*}indicates non-reported data.‡indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

Science Proficiency - ISA

What is it?

This shows the percentage and number of students scoring at each of the Performance Levels for the Illinois Science Assessment (ISA). The ISA performance levels indicate students' understanding of the Illinois Learning Standards in science for their grade level. There are four Performance Levels for the ISA:

- Level 1 Below Proficient: Work at this level shows a partial application of knowledge and skills. It is superficial (lacks depth), fragmented, or incomplete and needs considerable development. Work contains errors or omissions.
- Level 2 Approaching Proficient: Work at this level does not meet the standard. It shows basic, but inconsistent, application of knowledge and skills. Minor errors or omissions detract from the overall quality. Work needs further development.
- Level 3 Proficient: Work at this level meets the standard. It is acceptable work that demonstrates application of essential knowledge and skills. Minor errors or omissions do not detract from the overall quality.
- Level 4 Above Proficient: Work at this level is of exceptional quality. It is both thorough and accurate. It exceeds the standard. It shows a sophisticated application of knowledge and skills.

Science Proficiency - DLM

What is it?

This shows the percentage and number of students scoring at each of the performance levels for the Dynamic Learning Maps Alternative Assessment (DLM-AA) for students with cognitive disabilities. DLM-AA results are not based on raw or scale scores; all data is based on diagnostic classification modeling. Standard setting allows us to look at patterns of number of linkage levels mastered across the tested Essential Elements, to which we can apply cut points to define categories of student performance. This performance are reported using the four Performance Levels approved by the consortium:

- Level 1 Emerging: The student demonstrates emerging understanding of and ability to apply content knowledge and skills represented by the Essential Elements.
- Level 2 Approaching Target: The student's understanding of and ability to apply targeted content knowledge and skills represented by the Essential Elements is approaching the target.
- Level 3 At Target: The student's understanding of and ability to apply content knowledge and skills represented by the Essential Elements is at target.
- Level 4 Advanced: The student demonstrates advanced understanding of and ability to apply targeted content knowledge and skills represented by the Essential Elements.

Science Participation - ACT Suite

What is it?

Participation Rate is defined as the number of students who received participation credit for the state assessment divided by the number of students who were required to participate in the state assessment. No Participation Rate is defined as the number of students who did not receive participation credit for the state assessment divided by the number of students who were required to participate in the state assessment.

Eighth Graders Passing Algebra I

What is it?

This shows the percentage of eighth-graders passing Algebra I. They are defined as eighth-grade students who have successfully completed Algebra I (or its equivalent) by the end of Grade 8. Successful completion is measured by earning a D or above and receiving at least 1.0 credit hour.

	All	Female	Male	Non Binary	American Indian	Asian	Black	Hispanic	MENA	Native Hawaiian/ Pacific Islander	Two or More Races	White	Students with Disabilities

9th Grade On Track

What is it?

This shows the percentage of 9th graders on track. They are defined as the percentage of first-time ninth-grade students who have earned at least five course credits without failing more than 0.5 course credits in their core subjects. For the purpose of this metric, core subjects include reading, math, science, and social studies.

Career and Technical Education

What is it?

Career and Technical Education (CTE) programs in Illinois provide instruction for careers in high-wage, high-skill, and in-demand occupations.

Four year graduation rate: This shows the percentage of CTE concentrators who graduate high school as measured by the four-year adjusted cohort graduation rate, both as a whole and broken down by student group.

Extended graduation rate: This shows the percentage of CTE concentrators who graduate high school as measured by the extended-year adjusted graduation rate as defined in such Section 8101 (within six years of entering high school), both as a whole and broken down by student group.

ELA Proficiency: This shows CTE concentrators' proficiency in the challenging state academic standards adopted by the state under Section 111(b)(1) of the ESEA of 1965, as measured by the academic assessments in reading/language arts as described in Section 1111(b) (2) of such Act, both as a whole and broken down by student group.

Math Proficiency: This shows CTE concentrators' proficiency in the challenging state academic standards adopted by the state under Section 111(b)(1) of the ESEA of 1965, as measured by the academic assessments in mathematics as described in Section 1111(b)(2) of such Act, both as a whole and broken down by student group.

Science Proficiency: This shows CTE concentrators' proficiency in the challenging state academic standards adopted by the state under Section 111(b)(1) of the ESEA of 1965, as measured by the academic assessments in science as described in Section 1111(b)(2) of such Act, both as a whole and broken down by student group.

Post-Program Placement: This shows the percentage of CTE concentrators who, in the second quarter after exiting from secondary education, are in post secondary education or advanced training, military service, or a service program that receives assistance under Title I of the National and Community Service Act of 1990 (42 U.S.C. 12511 et seq.), are volunteers as described in Section 5(a) of the Peace Corps Act (22 U.S.C. 2504(a)), or are employed, both as a whole and broken down by student group.

Nontraditional program enrollment rate: This shows the percentage of CTE concentrators in CTE programs and programs of study that lead to fields in which their gender is underrepresented, both as a whole and broken down by student group.

Attained postsecondary credits rate: This shows the percentage of CTE concentrators graduating from high school having attained post secondary credits in the relevant career and technical education program or program of study earned through a dual or concurrent enrollment or another credit transfer agreement, both as a whole and broken down by student group.

Work-based learning rate: This shows the percentage of CTE concentrators graduating from high school having participated in work-based learning, both as a whole and broken down by student group.

Total Count of CTE Participants: This shows the total count of CTE participants, both as a whole and broken down by student group. Subsequent sections throughout the remainder of this section represent subtotals within each of the career cluster program areas available statewide.

^{*}indicates non-reported data.‡indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

High School Graduation Rate

What is it?

This shows the percentage of graduating students who entered ninth grade for the first time four, five, or six years prior to the year being reported. Graduation Rate is calculated based on ESSA High School Graduation Rate guidance found here. Students are reported at the school where students attend (home school). The cohort is based on the number of students who enter Grade 9 for the first time, adjusted by adding into the cohort any student who transfers in later during Grade 9 or during the next three years and subtracting any student from the cohort who transfers out, emigrates to another country, transfers to a prison or juvenile facility, or dies during that same period.

About the data

District environment data includes information regarding finances as well as information regarding conditions in the classroom, such as average class size and total school days.

No Data

Average Class Size

district's percentage of adequacy

Evidence-Based Funding

Early Learning

What is it?

This shows the percentage of entering kindergartners rated on their readiness. The Kindergarten Individual Development Survey (KIDS) was implemented statewide in Illinois in the 2017-18 school year. KIDS is an observational assessment tool designed to help teachers, administrators, families, and policymakers better understand the development of children in kindergarten. ISBE requires kindergarten teachers to collect observations beginning on the first day of in-person instruction on a minimum of 14 required measures, which are from three key developmental areas. This subset of 14 measures provides a developmental indicator for a group of students (class, school, district, state) in kindergarten.

School Level Finances

What is it?

Average spending per student at this school, as collected through the unaudited ESSA Site-Based Expenditure Report. Districts report the actual dollars spent in the previous school year, including site-level costs (like school staff) and districtwide centralized costs allocated to each individual school (like transportation and central office staff), divided by the school's enrollment. Districts also report whether federal or state/local sources funded the spending.

					District Centralized Per Pupil

District Finances

What is it?

The Annual Financial Report (AFR) for a district is the final financial statement for the fiscal year of a Local Education Agency (LEA) after it has been audited by a qualified auditor. Each district is required to have an annual audit completed by a qualified and licensed auditing firm. The AFR is completed by the auditor and is submitted to Illinois State Board of Education. This displays the Revenue by Source, Expenditure by Function, Expenditure by Fund, and other financial indicators.

Revenue By Source

	Local Property Taxes Other Local Fundin		Evidence-Based Funding	Other State Funding	Federal Funding	Total Revenue

Average Class Size

What is it?

This shows the average number of students in each class at this school. Class size refers to the number of students in a classroom, specifically either the number of students being taught by individual teachers in a classroom or the average number of students being taught by teachers in a school, district, or education system

	K	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10	Grade 11	Grade 12	Summary

Total School Days

What is it?

This shows the total number of days in which the school provided at least five hours of instruction during the school year. The minimum length for an Illinois public school's year is 176 days. The number of actual calendar days varies from district to district.

	Total School Days
District	176
State	176

Health and Wellness

What is it?

Days PE per week: This shows the average number of days of physical education per week per student.

Truant Minor Count: The table below reports the count of the number of truant minors in the district in the previous school year.

Truant Minors are defined as chronic truants to whom supportive services, including prevention, diagnostic, intervention and remedial services, alternative programs and other school and community.

Students

About the data

Student data includes information regarding the student population, including enrollment and attendance data, as well as information regarding specific student groups, such as gifted students and English Learner students. Student data often is disaggregated further into demographic student groups.

Student Enrollment

What is it?

This shows the total percentage and number of students enrolled in this school as of October 1 of the current school year. District-level enrollment includes students attending a school in the district and students placed in private schools by the district and funded by the district. The student enrollment excludes the following:

- Students given vouchers to attend private schools
- Students placed by their parents in private schools whose tuition is paid for by their parents, but who receive special education services from their home district

Advanced Academic Programs

What is it?

Advanced Academic Programs are courses of study to which students are assigned based on advanced cognitive ability or advanced academic achievement compared to local age peers and in which the curriculum is substantially differentiated from the general curriculum to provide appropriate challenge and pace.

Students who are Identified as Accelerated: The percentage of students who are Identified as Accelerated. Assessing a student for placement in an Advanced Academic Program may include assessment of a student as accelerated, either whole grade or in a combination of one or more subjects.

Students who are Identified as Accelerated by Demographics: The percentage of students who Are Identified as Accelerated, allowing the totals to be broken down by subject and/or other demographic and programmatic factors.

Advanced Placement (AP) Testing (College Board) Exams: This shows the cumulative total number of AP exams taken and the cumulative total number of AP exams receiving a score of 3.0 or more. Upon completion of an AP course, students may choose to take the corresponding AP Exam. Illinois state law PA 99-0358 provides that a student who takes a College Board Advanced Placement examination and receives a score of 3 or higher on the examination is entitled to receive postsecondary level course credit at an Illinois public institution of higher education.

Students Enrolled in Advanced Academic Coursework: Advanced Academic Coursework includes courses in a variety of categories, all of which may or may not be offered within an individual school or district: Advanced Placement Coursework, IB Coursework, Enriched of Honors Coursework, and Dual-Credit Coursework.

Students Enrolled in Advanced Academic Coursework – Grade and Demographics: The percentage of students who are enrolled in Advanced Placement Coursework, allowing the totals to be broken down by type of coursework, grade level, and/or other demographic and programmatic factors.

Students Assessed for Giftedness by Demographics: The number and percentage of students at this location who have been assessed for giftedness, allowing the totals to be broken down by subject and/or other demographic and programmatic factors.

Students Assessed for Giftedness Taught by a Gifted Endorsed Teacher – Grade and Demographics: The number and percentage of students at this location who have been assessed for giftedness and were taught by a Gifted Endorsed Teacher, allowing the totals to be broken down by subject, grade level, and/or other demographic and programmatic factors.

Students Identified as Gifted by Demographics: The number and percentage of students at this location who have been identified as gifted in accordance with the district's gifted assessment and academic policy, allowing the totals to be broken down by subject and/or other demographic and programmatic factors.

Students Identified as Gifted Taught by a Gifted Endorsed Teacher – Grade and Demographics: The number and percentage of students at this location who have been identified as gifted in accordance with the district's gifted assessment and academic policy and were taught by a Gifted Endorsed Teacher, allowing the totals to be broken down by subject and/or other demographic and programmatic factors.

Students With IEPs

What is it?

This shows the percentage of students who receive special education and related services in accordance with their Individualized Education Programs (IEPs). Each student who is found eligible for special education and related services receives an IEP that specifies supplemental services, accommodations, modifications, and supports to enable the student to be involved in, and make progress in, the general education curriculum. The state collects demographic information on all students, including racial and ethnic diversity. There are 14 disability areas, ranging from autism to visual impairment. Schools follow a process mandated by law in identifying students' disabilities and then developing IEPs.

Peer districts are districts of the same type as this district: Elementary School, High School, or Unit District.

Peer districts for Unit Districts do not include Chicago Public Schools.

What is it?

This shows the percentage of students with IEPs and the classification of their educational environment. Special education law requires that students with IEPs be placed to the maximum extent appropriate with children who are not disabled. This means including students with IEPs in general classrooms, the least restrictive environment, as much as possible. The IEP team, which includes parents, bases placement decisions on the best ways to meet the identified needs of a student. The percentage of time spent in general classrooms will vary according to the needs of individual students, who may require supplemental services to achieve their learning goals. The percentage of students with IEPs whose educational environment was classified into one of four settings for students age 6 to 21 is as follows:

- 80 percent or more of time in a general classroom with their non-disabled peers
- Less than 40 percent of time in a general classroom
- 40-79 percent of time in a general classroom
- In a separate facility

Peer districts are districts of the same type as this district: Elementary School, High School, or Unit District.

Peer districts for Unit Districts do not include Chicago Public Schools.

What is it?

This shows the percentage of students with IEPs and the classification of their educational environment. Special education law requires that students with IEPs be placed to the maximum extent appropriate with children who are not disabled. This means including students with IEPs in general classrooms, the least restrictive environment, as much as possible. The IEP team, which includes parents, bases placement decisions on the best ways to meet the identified needs of a student. The percentage of time spent in general classrooms will vary according to the needs of individual students, who may require supplemental services to achieve their learning goals. For preschool students age 3-5 with IEPs, educational environments are classified in five ways:

- Receives the majority of special education services inside an early childhood program
- Enrolled in a regular early childhood program but the majority of special education services outside the early childhood program
- Enrolled in special education class or facility
- At home
- In the care of a service provider

Peer districts are districts of the same type as this district: Elementary School, High School, or Unit District.

Peer districts for Unit Districts do not include Chicago Public Schools.

State Performance Plan Indicators For Students With IEPs

What is it?

The Individuals with Disabilities Education Act (IDEA 2004) requires states to develop and submit a State Performance Plan (SPP) to the Office of Special Education Programs at the U.S. Department of Education. The SPP is designed to evaluate the state's efforts to implement the requirements and purposes of IDEA and describe how the state will improve its implementation. The plan consists of several priority areas with specific indicators defined for each area. Measurable and rigorous targets are defined for each indicator to show progress throughout the life of the SPP. States are required to publicly report on SPP Indicators 1-14. A link to Part B of the Illinois State Performance Plan can be found at https://www.isbe.net/Pages/General-Supervision.aspx

SPP Indicator	Indicator Description	2024-25 District Data	2024-25 State Target	District Met Target
1	Graduation Percent for students with IEPs (Data lag one year)	80.00	82.6	No
2	Dropout Percent for students with IEPs (Data lag one year)	20.00	13.7	No
3ae4	Reading assessment participation rate for students with IEPs, Grade 4	100.00	95	Yes
3ae8	Reading assessment participation rate for students with IEPs, Grade 8	100.00	95	Yes

English Learners

What is it?

This shows students whose primary language is not English. These students have been identified through a screening process as eligible for bilingual education and/or English as a second language services, and who have not yet reached English language proficiency as measured by ACCESS for ELLs 2.0.

Student Mobility Rate

What is it?

A school's student mobility rate is the percentage of students who experienced at least one transfer in or out of the school between the first school day of October and the last school day of the year. Graduates are not included.

Student Mobility

Student M	Oblity

Chronic Absenteeism Rate

What is it?

This shows the percentage of students who miss 10 percent or more of school days per year either with or without a valid excuse. Illinois law defines "chronic absentee" as a student who misses 10 percent of school days within an academic year with or without a valid excuse. That's 18 days of an average 180-day school year. Excused absences include illness, suspension, need to care for a family member, etc. Students need daily instruction in order to succeed. Chronic absentees are at risk of academic and social problems.

Dropout Rate

What is it?

This shows the percentage of students who are removed from the local enrollment roster before the end of a school term. Dropouts include students in Grades 9-12 whose names have been removed for any reason, including moved not known to be continuing, transfer to GED-program, and aged out. The percentage does not include death, extended illness, graduation/completion of a program of studies, transfer to another public/private/home school, or expulsion.

Chronic Truancy Rate

What is it?

This shows the percentage of students who are considered chronic truants as defined in Section 26-2a of the School Code. Chronic truants include students subject to compulsory attendance who have been absent without valid cause from such attendance for 5 percent or more of the previous 180 regular attendance days.

Truancy Rate

What is it?

This shows the percentage of students who miss more than 1 percent but less than 5 percent school days per year without a valid excuse. Illinois law defines "truant" as a student who is subject to compulsory school attendance and is absent without a valid excuse for more than 1 percent but less than 5 percent of the past 180 school days.

Accountability

About the data

Summative designations are ratings that help families and communities understand how well schools are serving all students. Illinois has five summative designations: Exemplary School, Commendable School, Targeted School, Comprehensive School, and Intensive School. Targeted Schools and Comprehensive Schools receive additional funding and supports to build local capacity and improve student outcomes. Multiple measures of school performance and growth determine a school's annual* summative designation.

* Federal waivers issued in 2020 and 2021 impacted accountability. For more information, see www.isbe.net/summative.

Accountability

Summative Designation Meta Indicator Components

What is it?

Summative Designation Meta Indicators: The accountability system has meta-indicators that are currently being validated for use as indicators within the summative designation calculations in future years. The Illinois Report Card is not reporting an overall calculation, but rather the sub-elements of the indicator calculations.

Percentage of Students with 95% Attendance in Junior/Senior year: The tables indicate the percentage of students in this district and the state who graduated with an average attendance rate of 95% or better over their junior and senior years.

Percentage of students who fall into each GPA category: The tables indicate the percentage of students in this district and the state whose GPA fell into one of four categorical ranges (as noted in the table).

Percentage of students who meet the IL SAT/ ACT Composite Minimum requirement: The tables below indicate the percentage of students in this district and the state who met the minimum composite score requirements on the SAT or ACT.

Percentage of students who have at least 1 Academic ELA Indicator: The tables below indicate the percentage of students in this district and the state who have currently met the requirements for at least 1 academic ELA indicator.

Percentage of students who have at least 1 Academic Math Indicator: The tables below indicate the percentage of students in this district and the state who have currently met the requirements for at least 1 academic MATH indicator.

Percentage of students who have identified a Career Area of Interest by Sophomore Year: The tables below indicate the percentage of students in this district and the state who have identified a career area of interest by their sophomore year.

Percentage of students who have earned 1, 2, or 3+ career ready indicators: The tables below indicate the percentage of students in this district and the state who have earned 1, 2, or 3+ career-ready indicators.

Percentage of students who have earned a College and Career Pathway Endorsement: The tables below indicate the percentage of students in this district and the state who have earned a college and career pathway endorsement.

Student Participation in Fine Arts: The tables below indicate the percentage of students in this district and the state who were enrolled in one or more fine arts courses in the previous year.

Fine Arts: Teacher Qualifications: The tables below indicate the percentage of students in the district and the state enrolled in fine arts courses taught by teachers licensed to teach fine arts courses.

^{*}indicates non-reported data.‡indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

Teachers

About the data

Teacher data includes information regarding teachers, including salary, retention, and education, as well as information comparing the ratio of teachers to students.

Teacher Information

What is it?

This shows information pertaining to teachers, including experience, education, attendance, and evaluation.

	All Schools	Attendance Rate	Evaluation Rate
District	17	72.5%	100.0%
State	14	66.0%	96.9%

^{*} indicates non-reported data. ‡ indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

Full-Time Equivalents

What is it?

This shows the total percentage and number of teacher Full-Time Equivalents. The number of teachers at each school varies greatly depending on the student population, schools' grade configuration, programs offered, and the financial resources of the district. This displays the race and gender distribution by FTE for teachers in (this school/this district/the state). The table shows distribution by FTE, of *full-time equivalent*. FTE counts take into consideration employees who are employed less than full time, adding together the representative percentages of their level of employment (so 2 half time/.5 employees = 1FTE). Information is gathered about the race/ethnicity of school and district teachers. The percentage of male and female teachers is also compiled.

Teachers Education

What is it?

The tables below represent the percentage of teachers with bachelor's and master's degrees across the state and highlight the rates across all high-poverty and low-poverty schools in the district (as applicable).

Teachers Education - Bachelor's

	All Schools	High Poverty Schools	Low Poverty Schools
District	38.8%	*	32.7%
State	42.4%	42.4%	36.4%

Teachers Education - Master's

	All Schools	High Poverty Schools	Low Poverty Schools
District	60.2%	*	67.3%
State	56.6%	55.9%	63.3%

Student-To-Teacher Ratios

What is it?

This shows the average number of students per teacher. Teachers classified as special education teachers are not included. Research indicates that children in lower grades show the potential for higher achievement scores when they are in smaller classes. Many factors contribute to student achievement, and class size is only one part of this bigger picture. Special education classes are not included in this calculation.

	Student-Teacher Ratio - Elementary	Student-Teacher Ratio - Secondary
District	17	15
State	17	17

^{*} indicates non-reported data. ‡ indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

Novice Teachers

What is it?

The table below represents the percentage of teachers defined as "novice" - having less than 2 full-time equivalent years of combined public school teaching experience. The display summarizes the rate within this district and across the state and highlights the rates across all high-poverty and low-poverty schools in the district (as applicable).

	All Schools	High Poverty Schools	Low Poverty Schools
District	5 4.9%	*	2 2.0%
State	8,956 6.5%	2,511 8.0%	1,842 4.0%

Teacher Out of Field

What is it?

The table below represents the percentage of teachers defined as "out-of-field" – a teacher teaching in a grade or content area for which he or she does not hold the appropriate state-issued license, endorsement, approvals, or previous qualifications. The display summarizes the rate across the state and highlights the rates across all high-poverty and low-poverty schools in the district (as applicable).

Pupil Support Personnel Ratio

What is it?

State

These tables display the average number of students per counselor, the average number of students per nurse, the average number of students per social worker, and the average number of students per psychologist in this entity (whether it be school, district, or the state.) The ratio is calculated by using the fall enrollment total, divided by the number of FTE psychologists. When examining school or district ratios keep in mind that the number of psychologists can vary greatly between schools and districts, depending on their size, student population, programs, and financial resources.

Student/Support Personnel Ratio Student/School Counselor Student/School Psychologist Student/School Social Worker Ratio Student/School Nurse Ratio 240 721 721 **District** 491 1,445 871 420

^{*} indicates non-reported data. ‡ indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

Civil Rights Data Collection

(2021-22

About the data

The Civil Rights Data Collection (CRDC) is a biennial (i.e., every other school year) survey of public schools that has been required by the U.S. Department of Education Office for Civil Rights since 1968. The CRDC collects data on leading civil rights indicators related to access and barriers to educational opportunity from early childhood through Grade 12. The CRDC collects data from public Local Educational Agencies and schools, including juvenile facilities, charter schools, alternative schools, and schools serving only students with disabilities.

Student Environment

What is it?

Data from the Civil Rights Data Collection (CRDC) comes directly from the U.S. Department of Education (ED). ED collects the data directly from ISBE and school districts and releases the information on a two- to three-year delay. ISBE also collects some of these data elements from districts and reports the results in the year it was collected. Current year data for in-school suspensions, out-of-school suspensions, and expulsions is reported by ISBE in a separate report on www.isbe.net. Current year data for chronic absenteeism can be found in the Students section of the Report Card. Please note data may not match due to differences in data collection methods.

	In School Suspensions	Out Of School Suspensions	Expulsions	School Related Arrests	Referral to Law Enforcement	Chronic Absenteeism
District	3.3%	3.1%	0.0%	0.0%	0.0%	*
State	4.0%	3.7%	0.5%	0.2%	0.5%	*

^{*} indicates non-reported data. ‡ indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

About the data

The National Assessment of Educational Progress (NAEP), also known as "The Nation's Report Card," is the only nationally representative and continuing assessment that has been conducted periodically in reading, mathematics, science, writing, U.S. history, civics, geography, and the arts. NAEP does not provide scores for individual students or schools; instead, it offers results regarding subject-matter achievement, instructional experiences, and school environment for populations of students (e.g., fourth-graders) and subgroups of those populations (e.g., female students, Hispanic students). NAEP results are based on a <u>sample of student populations of interest</u>. National NAEP reports information for the nation and specific geographic regions of the country. It includes students drawn from both public and nonpublic schools and reports results for student achievement at Grades 4, 8, and 12.

Inclusion Rate and Standard Error in NAEP

What is it?

The National Assessment of Educational Progress (NAEP), also known as "The Nation's Report Card," is the only nationally representative and continuing assessment that has been conducted periodically in reading, mathematics, science, writing, U.S. history, civics, geography, and the arts. For more information, please see The Nation's Report Card.

National School Lunch Program									
Eligible NSLP	48.0%	259	44.0%	15.0%	3.0%				
Not Eligible NSLP	51.0%	295	79.0%	49.0%	18.0%				

[#] Rounds to zero.

NOTE: Detail may not sum to totals because of rounding, and because the "Information not available" category for the National School Lunch Program, which provides free/reduced-price lunches, is not displayed. Black includes African American and Hispanic includes Latino. Race categories exclude Hispanic origin.
