

**GOVERNING BOARD AGENDA ITEM
AMPHITHEATER UNIFIED SCHOOL DISTRICT NO. 10**

DATE OF MEETING: December 7, 2021

TITLE: Study and Approval of 2021-2022 District 301 Plan

BACKGROUND:

The Arizona Department of Education requires that each district Governing Board approve a District Classroom Site Fund Pay for Performance Compensation Plan by December 31st of each year. A.R.S. § 15-977 requires that the plan comply with fourteen key elements to obtain approval. The plan for 2021-2022 required significant changes from the previous plan. A.R.S. § 15-977 became effective September 28, 2021, which made significant amendments to how districts must use Prop 301 funds. The changes were evaluated by the 301 Oversight Committee and new recommendations were made. The updates include; date and year changes, inserting current achievement data, changing the early literacy assessment and new state assessment, and updating language in some areas and adding back additional groups that received the funds in 2011 before the law changed.

The updated District 301 Plan for 2021-2022 is attached for study and approval. Changes are indicated in red font.

RECOMMENDATION:

This item is presented for Governing Board approval.

INITIATED BY:

Tassi Call, Associate Superintendent for Elementary Education

Date: November 29, 2021

Todd A. Jaeger, J.D., Superintendent

Katherine Hoffman
Superintendent of
Public Instruction

Submission Guidelines for Classroom Site Fund Pay for Performance Compensation Plan

School District: AMPHITHEATER UNIFIED SCHOOL DISTRICT #10

Fiscal Year: 2021-2022

- 1. Briefly summarize the district performance and school performance(s). Include evidence of your findings. Suggested evidence might include: national performance assessments, district performance assessments, building performance assessments, classroom formative and summative assessments.**

The Amphitheater plan includes student performance results on a site selected method of summative assessment in the targeted academic area for that school (e.g., NWEA MAP testing in math or reading, **Amira**, etc.). The formative assessment for this plan is in the form of a site selected student engagement goal and assessment. Teachers and administrators at each site determine the academic focus areas and the focus area for student engagement based upon analysis of data from the previous year. The results of State testing in the area of reading or math is utilized for Goal II. **The 2021 Arizona Academic Standards Assessment (AASA) results will be used for the payout for Goal II.** The 301 Site Plan aligns with the school's improvement plan and the district continuous improvement plan. School improvement plans are submitted to the Arizona Department of Education through ALEAT.

Our District 301 Plan is made up of three components: Goal IA, addressing student engagement; Goal IB addressing a site selected method of assessing student academic performance; and Goal II addressing student results on State testing in either reading or mathematics. Further description of these goals are included below:

Goal IA: Each school will develop a student engagement goal and select an appropriate method of assessment. Student engagement goals may address, but not be limited to: attendance, tardiness, dropout rate, suspension rate, graduation rate, office referrals, number of students passing Advanced Placement exams, increase in the number of students involved in extracurricular activities, increased use of critical thinking instructional strategies, classroom engagement during instruction, etc.

Sample goals:

- Students will show evidence of observable student engagement behaviors during classroom activities as measured by the 'Effective Learning Environments Observation Tool' (ELEOT) from the **Cognia formerly (AdvancED)** accreditation system.
- (SCHOOL NAME) students will maintain or exceed their participation in extra-curricular offerings or in-class participation in any of the following activities: 21st century clubs, tutoring, band, O.M., reading, math, science family/teacher nights, interactive field trips and /or by participating in a production or a computer simulation during the 2021-2022 school year. This will be measured by attendance records in extracurricular activities from fall to spring as well as participation surveys. The surveys will be given to each student attending (SCHOOL NAME) by their classroom teacher at the beginning and end of the 2021-2022 school year.

Goal IB: Each school will establish a student achievement goal and an appropriate approved assessment to measure student progress toward that goal. The goal must be met at an 80% or higher level.

Sample Goal:

- Our goal is that 80% of continuously enrolled students at ___ School will exhibit Fall-to-Spring RIT growth on the MAP level tests that are within one and a half standard deviations from the national norm growth expectation in the Reading Strand of Comprehending Informational Text. For grades K-1 who do not take the MAP Level Testing, our goal is that 80% of our continuously enrolled students will exhibit gains on the district-approved **Amira** testing measured from fall to spring.

Goal II: Each school selects a core content area from the **AASA**. The school must have at least 75% of the students maintaining or exceeding their level of performance from the previous year to receive the full pay out.

- 2. Provide evidence of measures of academic progress included in the plan that supports the Arizona Academic Standards. Suggested evidence might include: summative assessments, criterion-referenced tests, performance assessments, school-wide assessments, and formative and summative assessments.**

The **AASA results are utilized to determine teacher success with Goal II**. The **AASA** is closely aligned with the Arizona College and Career Readiness Standards. All of the site selected methods of assessment are also tied closely to the Arizona College and Career Readiness Standards. For Goal I, schools select a method of assessment to monitor growth. Most all elementary and middle schools choose the NWEA MAP test in the area of Reading or Math for this section. **Amira** is chosen by several schools for grades K and 1. High schools do not have one consistent standardized test given to all students. Each of the high schools have developed a test that assesses one or more standards or skills that the school level plan addresses.

- 3. Are there any other measures of academic progress used within the Pay for Performance Plan? For example: report cards, progress reports, formative and summative assessments.**

Each school chooses a site selected method of assessing student achievement. The choices most often made at the schools include:

Student Engagement Assessment Examples	Student Achievement (Formative and Summative) Examples
<ul style="list-style-type: none"> • Student progress on report cards or progress reports • Increase in actual student engagement in classroom activities as measured by peer or administrative observation • Student engaged time on reading, writing or math activities • Increases in student engagement in extracurricular activities 	<ul style="list-style-type: none"> • NWEA Measures of Academic Progress (at some sites) • Amira (at some sites) • School-wide assessments at each high school (Reading, math or writing) • Everyday Math and/or HMH Into Reading assessments

- 4. Briefly discuss dropout and/or graduation rates if they are used in the district performance plan. If they are not used, provide a rationale as to why they are not.**

Each high school examines their drop out or graduation rate as a component of Goal IA and will document the methods and/or activities they employ to reduce dropout rates or increase graduation rates. This discussion and analysis takes place at the time that the school plan is developed.

- 5. Briefly discuss attendance rates within the district/school if they are used in the district performance plan. If they are not used, provide a rationale as to why they are not. The intent of this element is student attendance rates NOT teacher attendance rates.**

Each school will examine attendance rates and will document methods and/or activities they employ to increase attendance rates. Our attendance rates, in general, are quite good district-wide. Where attendance rates are below 95%, schools are addressing the issue with incentives and parent education. Some site plans directly address attendance rate if the rate is below 95%.

- 6. Does the district plan include rates of school quality by parents? Suggested evidence would be district or school-wide parent surveys and a plan for survey analysis. If they are not used, provide a rationale as to why they are not.**

A parent climate survey is given each year to gather parent perceptions of the quality of their child's school. The survey results are utilized in the formation of the school improvement plan. The 301 Site Plan is in alignment with the school improvement plan. The Amphitheater School District utilizes the parent version of the **Cognia** survey annually. This is a component of our systems accreditation. The survey data is utilized, in part, to determine the performance of each school and each teacher in the "Group A" category for teacher evaluation. As the teacher evaluation "label" is now a part of the pay out, and we utilize parent surveys as a portion of the overall rating, we meet this criteria.

- 7. Does the district plan include rates of school quality by students? Suggested evidence would be district or school-wide student surveys and a plan for survey analysis. If they are not used, provide a rationale as to why they are not.**

Each school has the option of including ratings of school quality by students as a portion of the school engagement goal, Goal IA. The parent climate survey includes questions that directly address the student perceptions of the quality of their school. The **Cognia** surveys, administered annually, include survey participation for students at all levels K-12.

- 8. In the development of the plan, were teachers and administrators included in the process? If so, provide a brief summary of their role.**

Teachers and administrators designed the Amphitheater 301 Performance Pay Plan in its entirety. Both teachers and administrators serve on the "301 Oversight Committee". Further, each school develops their own 301 Site Plan. The development of the plan at the school level is led by one or more teachers and involves a committee of teachers at each school. Every staff member has an opportunity to provide input to the plan and adjustments are made accordingly. Each school administrator oversees the 301 Site Plan process and provides input as needed. A 301 Contact person is appointed at each school. They are responsible for writing the site plan, coordinating participation and reporting results. After the plan is written, each participant signs an agreement form. This form serves as the required "vote". Each school sends one or more representatives to a plan writing training annually. These representatives share information with all teachers at their site.

- 9. Was the approval of the plan based on an affirmative vote of at least 70% of the teachers eligible to participate in the performance plan? If so, provide evidence of this. If not, provide a rationale as to why this was not included.**

The Amphitheater Governing Board held a Public Hearing on the Performance Pay Plan on April 11, 2006. At that time the Governing Board approved a waiver of this requirement. The rationale for the waiver was that teachers were,

and continue to be, actively involved in the development and implementation of the 301 Site Plans. Plan approval occurs at each site every year. Each participant signs a participation agreement form. This serves as documentation of the "vote" on the plan. District-wide, participation in 301 Site Plans is between 98%-100% annually. This has been consistent over time.

10. Summarize the appeals process for teachers who have been denied performance-based compensation. If there is not an appeals process, provide a rationale as to why there is not one.

Each school shall have the opportunity to appeal from situations in which the school does not attain its Goal I and/or its Goal II. Appeals shall be based upon extenuating circumstances which substantially interfered with or precluded a school from attaining the goal(s). Appeals shall be in writing and must be demonstrated and supported by data and rationale. Appeals will be reviewed and determined through the following process.

a. The written appeal request will be submitted to the District's Performance Pay Office within ten (10) workdays of notification to the school of the level of attainment achieved by the school under Goal I and Goal II. The appeal request shall include, at a minimum:

- i. A general explanation of the basis for the appeal;
- ii. Data supporting the appeal and demonstrating extenuating circumstances that *substantially interfered with or precluded* a school's achievement of a goal(s) under the 301 Plan;
- iii. The school's requested solution; and
- iv. Rationale for the requested solution, related to the data.

b. The District 301 Oversight Committee shall meet and review the written appeal and shall make a recommendation to the Associate Superintendent for approval or denial based upon the data and rationale presented in the appeal. In addition to the criteria stated above, the committee shall also consider the following additional factors in making its recommendation:

- i. Evidence the school made significant progress toward the goal;
- ii. Validity of the stated reason for not completely meeting the goal(s);
- iii. The extent to which extenuating circumstances were unforeseeable and directly impacted the school's achievement of the goal(s);
- iv. The school's interventions or efforts in response to the extenuating circumstances; and
- v. Interests of consistency and fairness for all schools.

c. The 301 Oversight committee shall submit a written recommendation and rationale to the Associate Superintendent, who shall have the discretion to make the final determination of the appeal after considering the recommendations of the 301 Oversight Committee. The Associate Superintendent shall notify the principal of the decision on the appeal.

d. The decision of the Associate Superintendent shall be final and is not subject to further appeal or grievance.

The plan also includes a provision that teachers who have been recommended for non-renewal for inadequate classroom performance are not eligible for monies from the performance-based plan. Non-renewal would be recommended based on administrative evaluation of classroom performance. District policy states that the results of any evaluation which would result in a loss of income may be appealed. The appeal procedures are available in the district policy manual.

11. Does the district plan include a method to evaluate its effectiveness? If so, provide details of it. If not, provide a rationale as to why there is not an evaluation of the district plan.

A 301 Oversight Committee made up of a) four (4) district administrators, b) a representative from the Amphitheater Education Association, and c) three (3) certified staff members, one from each corresponding feeder pattern who serve as the main evaluators of the 301 Plan effectiveness. While the design, implementation, and evaluation of each plan will occur at the site level, the Oversight Committee reviews plans and make recommendations to the superintendent for approval and reviews results presented by the schools to determine whether or not schools have met their goals. The purpose of the Oversight Committee will be to monitor adherence to statutory requirements of the Performance-Based Compensation portion of Proposition 301, to monitor accountability and consistency between plans, to disseminate information, and make recommendations to modify the performance-based plan.

All sites submit their plan for Oversight Committee review by mid-October each year. The committee provides feedback to the school representatives for plan improvements as needed. The committee meets again to review all site plan results and evaluates the effectiveness of the site activities and efforts. Quantitative evaluation criteria are in place to ensure consistency. The pay for performance coordinator oversees the implementation of the district 301 plan and makes recommendations to senior staff with regard to plan effectiveness.

12. Provide a summary of the professional development programs that are aligned with the elements of the district performance-based compensation system.

A 301 Site Plan Writing Workshop is held for school coordinators each year. The training includes information on how to write measurable goals and how to develop site plans which are relevant, meaningful and meet the requirements of Arizona State Law.

As a part of the 301 Site Plan, schools are required to submit a site-specific professional development plan which aligns with their plan goals. Time is set aside at each school every year for development activities which prepare teachers with strategies and methods that will be necessary to meet the goals set forth by the plan. Each school site has designated "early out" days with scheduled professional development. Since 301 Plans and School Improvement Plans are aligned, the professional development is designed with both plans in mind. Each school site provides a detailed professional development plan and calendar to the School Operations office each year.

13. Provide documentation to show how classroom site fund dollars are allocated.

Elimination of separate classroom site fund dollars is another change to ARS 15-977. We will continue to follow the previous percentage allocations.

~~Classroom Site Fund: 011-Base Salary (20%)~~

This portion of the fund is used to increase the base salaries of teachers.

~~Classroom Site Fund: 012-Performance Pay (40%)~~

This fund pays the performance pay to teachers each year based on the school site plan. Schools develop a plan which includes an engagement goal and a goal with a site-based assessment measure. In addition, a goal is written to address one of the areas of the AASA.

~~Classroom Site Fund: 013-Other (40%)~~

This category gives the district some discretion on how to utilize the funds in the best interest of the needs of students. The option that Amphitheater has chosen this year is:

- **Teacher Salaries**

Overall: 100% of the revenues received for 301 by Amphitheater have gone directly to teachers *and new qualified employee groups (student support services)* in the form of performance pay and base salary.

Distribution: ~~Fund-011~~ Base Salary (20%) and ~~013~~ Other (40%) categories are currently built in to the teacher's regular contracted salary amounts. ~~Fund-012~~ The Performance Pay element (40%), is distributed to participating ~~teachers~~ **employee groups** in a lump sum payment in late ~~September October or early November~~ of every year. It is based on the school-based 301 plan results from the previous school year. All participants in the plan from the previous school year are paid regardless of their status with the district in October or November (e.g., retired, resigned, etc.). **All participants must have a current certificate (certified staff) and must have fulfilled their pervious year contract to receive their payout.** The amount of the payout varies each year based on the accumulation of the fund. The entire fund is distributed according to the degree of accomplishment of the school plan. The 301 Oversight Committee reviews all results of the plans in September of each year prior to making recommendations to the Governing Board for pay out approval. The distribution of the performance pay for 2020-2021 occurred on **September 24, 2021.**

14. Explain how the performance plan is tied directly to the classroom performance of individual teachers.

Individual teachers play a key role in the success of students on site-based methods of assessment and on the final results of all standardized testing. Our current Amphitheater Teacher Performance Evaluation System requires each teacher to examine student data, utilize appropriate assessment techniques and complete long-term plans as a regular expectation for their job. Assessments utilized in the plan (i.e., NWEA MAP testing, **Amira**) are disaggregated to the individual teacher level and examined. Goal IA, the School Engagement Goal, requires every teacher to gather data to document progress toward the site-specific goal. This data is analyzed at the end of the year and stored at each school site. Individual teachers must all contribute to their 301 Site Plan in order to participate and receive performance compensation. Although the 301 payout is linked to the results of the whole school, each teacher is fully engaged in the process. Specialist teachers submit statements detailing their contribution to the site 301 Plan.

The performance classifications of teachers are utilized to determine 33% of the performance pay. Since the full amount of the pay varies by year due to fluctuations in sales tax revenue, the actual dollar amount of this portion of the pay will vary from year to year.

The performance classifications and the percentage of the overall available dollars attainable that will make up the 33% is as follows:

- Highly Effective Performance Classification: 100% of the available funds
- Effective Performance Classification: 95% of the available funds
- Developing Performance Classification: 85% of the available funds
- Ineffective Performance Classification: \$0

Example:

Total Amount Available Per Participant: \$2500

33% of the total amount: \$825

Highest amount available to a teacher designated as Highly Effective: \$2500

Highest amount available to a teacher designated as Effective: \$2458.75

Highest amount available to a teacher designated as Developing: \$2376.25

Highest amount available to at teacher designated as Ineffective: \$0

67% of the total performance pay available would be paid out based on the results of the school plan.

Amphitheater Unified School District
301 Performance Pay Plan 2021-2022

Overview

This document describes the implementation of Performance-Based Compensation as a result of Proposition 301 for Amphitheater Public Schools. Amphitheater will implement site-based plans designed to target student achievement and student engagement and to provide teachers with professional development in support of the goals of each plan. Participation will be optional and made available to all employees who meet the statutory requirements. Although the plan will focus at the site level, compensation, consistency, accountability, and conformity with statutory requirements will occur at the district level.

Rationale

It is the goal of the Amphitheater School District that the implementation of this program and any revenues received be focused directly on student achievement, student engagement, professional development, and established district/site continuous improvement plans.

The Amphitheater Performance-Based Plan (301) requires individual sites to develop and implement plans that meet the specific needs of the students attending that school. The development and implementation of each site plan will result from collaboration of all participating employees. Each eligible participant will agree to the plan each year by signing a participation agreement. Participants can withdraw at any time. This agreement will serve as the required "vote". Participants at the site will establish a means for documenting individual participation. However, the site plan will be designed in such a manner that the results are documented on a school-wide basis.

While the design, implementation, and evaluation of each plan will occur at the site level, an Oversight Committee will review plans and make recommendations to the superintendent for approval. The purpose of the Oversight Committee will be to monitor adherence to statutory requirements of the Performance-Based Compensation portion of Proposition 301, to monitor accountability and consistency between its plans, to disseminate information and make recommendations to modify the performance-based plan.

Eligibility

Participation will be open to all **certified employees who meet the statutory requirements. Participation is optional, with only those participating being eligible for additional compensation from the State funding for this plan. Itinerant employees shall identify one site for their participation in the Performance-Based Compensation Plan.**

As a result of the changes in ARS 15-977 that included the addition of "student support services" participants, the 301 Oversight Committee is recommending returning the employee groups from 2011 that were previously excluded due to the law change in 2011. These groups include Counselors, Nurses, Speech Therapists, Psychologists, Athletic Trainers, Audiologists, Social Workers, Paraprofessionals, Occupational Therapists, and Physical Therapists.

On August 1, 2007, the compensation package approved by the Governing Board allowed for a performance pay plan for Principals and Assistant Principals. In 2021, the award was \$600. In addition to the Principals, Assistant Principals and Instructional Support Assistants, the 301 Oversight Committee is recommending to include the following groups in the \$600 award (this award is not paid out of 301 funds, but the Maintenance & Operations (M&O budget); Instructional Coaches, School Improvement Specialists, Curriculum Instructional Support Specialists, and Coordinators (Math, Science, Language Arts and Internship). The committee is also recommending that the Library Assistants participate under the 2011 paraprofessional payout schedule. This award will be paid out of the M&O budget.

Employees will acknowledge their choice of participation in the Performance-based Compensation Plan by written affidavit by the Friday before Fall Break (**Winter Break for new employee groups that may now participate due to changes in the law**) when site plans are due. A signature agreeing to participate in the plan will serve as a "vote" in favor of the plan. Employees will not be permitted to join the performance-based compensation plan during the course of the year unless newly hired or special circumstances occur as approved by the coordinator of the Pay for Performance Plan. Employees joining the plan late will receive prorated compensation based on their start date. Employees after the start of the spring semester, however, will not be eligible for the plan until the next fiscal year.

An employee's annual evaluation should not be affected by their decision regarding participation in the performance pay plan.

Employees who have been recommended for non-renewal for inadequate classroom performance or unprofessional conduct during the current year are not eligible for monies from the performance-based plan.

Compensation

With the intent of equalizing the performance-based compensation for each participating employee, the total funds allocated to the district will be adjusted at the district level at the end of the academic (fiscal) year to assure that participating employees with equal achievement receive equal compensation.

Attainment of Goal IA and Goal IB will result in qualifying teachers receiving 60% of the allocated performance dollars. Attainment of Goal II will result in teachers receiving 40% of the allocated performance dollars. In cases where achievement is less than the goal, compensation will be on a prorated basis. Compensation will be computed on a percent mastery rate achieved towards the goal. Attainment of both Goal I A&B and Goal II will result in qualifying teachers to receive 67% of the allocated performance dollars. Pursuant to ARS 15-977, the Amphitheater District 301 Plan will include the requirement that 33% of the available funds for performance pay be based on the Amphitheater Teacher Performance Evaluation System (ATPES) performance classification of the teacher (e.g., Highly Effective, Effective, Developing, Ineffective).

Teachers Certified employees who are involved for the first time will receive their sign on compensation of up to \$600 at the same time as returning teachers receive their pay for performance monies. Actual compensation amounts are determined by revenue received from the state, number of participants, and the number that are successful.

Pay for performance will be based on the percentage of the employee's FTE. For example, a 2/5 employee is eligible to receive 40% of the allocated dollars for performance.

Upon successful completion of the program, qualifying employees of Amphitheater Public Schools will receive Goal I, Goal II and performance classification compensation after the District has received and analyzed applicable test data from the preceding year. The time required for analysis and processing of program results is varies dependent upon the receipt of assessment data. Goal I and/or Goal II compensation will also be made to former employees who have retired from the District prior to receipt of test data. Notwithstanding their retirement status, retirees shall receive their compensation at the same time as payment to current employees. Participants who have left the District are eligible to receive 301 monies. It is the employee's responsibility to provide an accurate address. Checks returned to the district will be held for one year in the finance office.

Structure of the 301 Site Plan

Every school submits a 301 Site Plan each year consisting of the following components:

1. Purpose of the Site Plan: *(identify targeted student achievement in **one** core content area)*

2. Rationale of the Site Plan:

(Explain the specific needs of your student population and address the benefits of the site plan)

- **School Engagement** *(one or two areas)*

- **Core Content Area**

3. Planning Committee has reviewed attendance rate (ALL SCHOOLS) and drop out or graduation rate (HS) as a consideration in the creation of this plan. YES

Attendance Rate from previous year _____

Graduation Rate _____ **OR**

Drop Out Rate _____

4. Planning Committee has reviewed Parent Climate Surveys as a consideration in the creation of this plan. YES Focus Area (if applicable) _____

5. Goal I, Part A: School Engagement

*(Goal statement, site chosen measure(s), include **all** students, document growth)*

6. Goal I, Part B: Site Method of Student Achievement Assessment

*(Goal statement, address **one** core content area, district-approved assessment(s), continuously enrolled students, 80% achievement)*

7. Goal II: Arizona Academic Standards Assessment (AASA)

*Goal Statement: In grades 3-8, 75% of all continuously enrolled students will maintain or exceed the **AASA** scale score from the prior year in core content area of **English Language Arts** or **Math**.*

8. Professional Development

- Rationale: *(address how this will support the site plan)*
- Content:
- Dates:
- Attendance Records:

9. Support of Site Plan

- Strategies/activities teachers will do to support plan:
- Means of documenting individual teacher involvement:

10. Concerns/limitations

Reporting Results

Each school must submit a report at the end of the school year. The Oversight Committee reviews the reports and the data analysis for Goal II and makes recommendations for the payout. The contents of the report are as follows:

Amphitheater 301 Performance Pay Plan Results
School:

1. Goal I, Part A: School Engagement

- Restate Goal
- Pre-assessment Data Results
- Post-assessment Data Results
- Briefly state supporting evidence

- Goal Met _____YES _____NO

2. Goal I, Part B: Site Based Assessment

- Restate Goal:
- Pre-assessment Data Results
- Post-assessment Data Results
- Briefly state supporting evidence

- Goal Met _____YES _____NO

1. Goal II: **Arizona Academic Standards Assessment (AASA)**
This analysis is completed by the district data department and presented to each school.

The following section addresses each plan element addressed by the Arizona Performance Based Compensation Task Force Rubric:

2. Inclusion of district and school performances

The Amphitheater plan includes student performance results on a site selected method of summative assessment in the targeted academic area for that school (i.e., NWEA MAP testing in math or reading, developmental reading assessments, writing assessments, etc.). Each site also selects a student engagement goal and assessment. The formative assessment for this plan is in the form of a site selected student engagement goal and assessment. Teachers and administrators at each site determine the academic focus area and the focus area for student engagement. Their selection is based upon analysis of data from the previous year. The results of **AASA** testing are utilized for Goal II. The school chooses ELA or Mathematics. The 301 Site Plan aligns with the school's improvement plan.

Goal IA: Each school will develop a student engagement goal and select an appropriate method of assessment. Student engagement goals may address, but not be limited to: attendance, tardiness, dropout rate, suspension rate, graduation rate, office referrals, number of students passing Advanced Placement exams, increase in the number of students involved in extracurricular activities, etc.

Goal IB: Each school will establish a student achievement goal and an appropriate approved assessment to measure student progress toward that goal. The goal must be met at an 80% or higher level.

Goal II: **AASA** results will be used to determine the compensation for Goal II.

Inclusion of academic progress toward academic standards adopted by the state board of education

Previously, AIMS test results were utilized to determine the payout for "Goal II" of the Amphitheater plan. We are transitioning to using the results from the **AASA** test. All of the site selected methods of assessment for Goal I are tied closely to the Arizona Career and College Readiness Standards.

3. Inclusion of other measures of academic progress

Schools have the option of including report cards and progress reports as a part of their Student Engagement Goal. Each school chooses a site selected method of assessing student achievement. The choices most often made at the schools include:

Student Engagement Assessment Examples	Student Achievement (Formative and Summative) Examples
<ul style="list-style-type: none"> • Student progress on report cards or progress reports • Increase in actual student engagement in classroom activities as measured by peer or administrative observation • Student engaged time on reading, writing or math activities • Increases in student engagement in extracurricular activities 	<ul style="list-style-type: none"> • NWEA Measures of Academic Progress (at some sites) • Amira (at some sites) • Developmental Reading Assessment • School-wide assessments at each high school (Reading, math or writing) • Curriculum series benchmark assessments (e.g., Everyday Math, HMH Into Reading, etc.)

4. Inclusion of dropout or graduation rates

Each high school will analyze their drop out or graduation rate as a component of Goal IA and will document the methods and/or activities they employ to reduce dropout rates or increase graduation rates.

5. Inclusion of attendance rates

Each school will examine attendance rates and will document methods and/or activities they employ to increase attendance rates.

6. Inclusion of rates of school quality by parents

The parent survey is given each year to gather parent perceptions of the quality of their child's school. The survey results are utilized in the formation of the school improvement plan as needed. The 301 Site Plan is in alignment with the school improvement plan. Amphitheater School District completed the AdvancED accreditation process during the 2018-2019 school year and received system accreditation. We have utilized the **Cognia (AdvancED)** surveys annually. Parent surveys are included in this process.

7. Plan includes rates of school quality by students

Each school has the option of including indicators of school quality by students as a portion of the school engagement goal, Goal IA. The student survey includes questions that directly address the student perceptions of the quality of their school. Amphitheater School District completed the AdvancED accreditation process during the 2018-2019 school year and received system accreditation. We are utilizing the **Cognia** surveys annually. Student surveys were included in this process.

8. Input from teachers and administrators

Teachers and administrators designed the Amphitheater 301 Performance Pay Plan in its entirety. Both teachers and administrators serve on the 301 Oversight Committee. Further, each school develops their own 301 Site Plan. The development of the plan is led by one or more teachers and involves a committee at each site. Every staff member has an opportunity to provide input to the plan and adjustments are made accordingly. Each school administrator oversees the 301 Site Plan process and provides input as needed. Upon completion of the plan, each participant signs an agreement form. This form serves as the required "vote".

9. Approval of the plans based on an affirmative vote of 70% of eligible teachers

The Amphitheater Governing Board held a Public Hearing on the Performance Pay Plan on April 11, 2006. At that time the Governing Board approved a waiver of this requirement. The rationale for the waiver was that teachers were, and continue to be, actively involved in the development and implementation of the 301 Site Plans. Plan approval occurs at each site every year. Each participant signs a participation agreement form. This serves as documentation of the "vote" on the plan. District-wide, participation in 301 Site Plans is consistently between 97% and 100%.

10. Appeals process

Each school shall have the opportunity to appeal from situations in which the school does not attain its Goal I and/or its Goal II. Appeals shall be based upon extenuating circumstances which substantially interfered with or precluded a school from attaining the goal(s). Appeals shall be in writing and must be demonstrated and supported by data and rationale. Appeals will be reviewed and determined through the following process.

a. The written appeal request will be submitted to School Operations within ten (10) workdays of notification to the school of the level of attainment achieved by the school under Goal I and Goal II. The appeal request shall include, at a minimum:

- v. A general explanation of the basis for the appeal;
- vi. Data supporting the appeal and demonstrating extenuating circumstances that *substantially interfered with or precluded* a school's achievement of a goal(s) under the 301 Plan;
- vii. The school's requested solution; and
- viii. Rationale for the requested solution, related to the data.

b. The District 301 Oversight Committee shall meet and review the written appeal and shall make a recommendation to the Associate Superintendent for approval or denial based upon the data and rationale presented in the appeal. In addition to the criteria stated above, the committee shall also consider the following additional factors in making its recommendation:

- vi. Evidence the school made significant progress toward the goal;
- vii. Validity of the stated reason for not completely meeting the goal(s);
- viii. The extent to which extenuating circumstances were unforeseeable and directly impacted the school's achievement of the goal(s);
- ix. The school's interventions or efforts in response to the extenuating circumstances; and
- x. Interests of consistency and fairness for all schools.

c. The 301 Oversight committee shall submit a written recommendation and rationale to the Associate Superintendent, who shall have the discretion to make the final determination of the appeal after considering the recommendations of the 301 Oversight Committee. The Associate Superintendent shall notify the principal of the decision on the appeal.

d. The decision of the Associate Superintendent shall be final and is not subject to further appeal or grievance.

Teachers who have been recommended for non-renewal for inadequate classroom performance are not eligible for monies from the performance-based plan. Non-renewal would be recommended based on administrative evaluation of classroom performance. District policy states that the results of any evaluation which would result in a loss of income may be appealed. The appeal procedures for individual teachers in this situation are available in the district policy manual.

11. Regular evaluation of effectiveness/committee membership structure

A 301 Oversight Committee made up of a) four (4) district administrators, b) a representative from the Amphitheater Education Association, and c) three (3) certified staff members, one from each corresponding feeder pattern will serve as the main evaluators of the 301 Plan effectiveness. While the design, implementation, and evaluation of each plan will occur at the site level, the Oversight Committee will review plans and make recommendations to the superintendent for approval and review results presented by the schools to determine whether or not schools have met their goals. The purpose of the Oversight Committee will be to monitor adherence to statutory requirements of the Performance-Based Compensation portion of Proposition 301, to monitor accountability and consistency between plans, to disseminate information, and make recommendations to modify the performance-based plan.

All sites submit their plan for Oversight Committee review by mid-October each year. The committee provides feedback to the school representatives for plan improvements as needed. The committee meets again to review all site plan results and evaluates the effectiveness of the site activities and efforts. Quantitative evaluation criteria are in place to ensure consistency. The pay for performance coordinator oversees the implementation of the district 301 plan and makes recommendations to senior staff with regard to plan effectiveness.

12. Inclusion of professional development programs that are aligned with the elements of the performance-based compensation system

A 301 Site Plan Writing Workshop is held for school coordinators each year. The training includes information on how to write measurable goals and how to develop site plans which are relevant, meaningful and meet the requirements of Arizona State Law.

As a part of the 301 Site Plan, schools are required to submit a site-specific professional development plan which aligns with their goals. Time is set aside at each school every year for development activities which prepare teachers with strategies and methods that will be necessary to meet the goals set forth by the plan. Each school site has designated "early out" days with scheduled professional development. Since 301 Plans and School Improvement Plans are aligned, the professional development is designed with both plans in mind. Each school site provides a detailed professional development plan and calendar to the School Operations office each year.

13. Allocation of funding according to the requirements A.R.S. 15-977

~~Classroom Site Fund: 011-Base Salary (20%)~~

This portion of the fund is used to increase the base salaries of teachers.

~~Classroom Site Fund: 012-Performance Pay (40%)~~

This fund pays the performance pay to teachers each year based on the school site plan. Schools develop a plan which includes an engagement goal and a goal with a site-based assessment measure. In addition, a goal is written to address one of the areas of the AASA.

~~Classroom Site Fund: 013-Other (40%)~~

This category gives the district some discretion on how to utilize the funds in the best interest of the needs of students. The option that Amphitheater has chosen this year is as follows:

- **Teacher Salaries**

Overall: 100% of the revenues received for 301 by Amphitheater have gone directly to teachers in the form of performance pay or base salary.

14. Requirements of the plan are based on the classroom performances of an individual teacher

Individual teachers play a key role in the success of students on site-based methods of assessment and on the final results of all standardized testing. Our current Amphitheater Teacher Performance Evaluation System requires each teacher to examine student data, utilize appropriate assessment techniques and complete curriculum maps as a regular expectation for their job. Formative assessments utilized in the plan (i.e., NWEA MAP testing) are disaggregated to the individual teacher level and examined. Goal IA, the School Engagement Goal, requires every teacher to gather data to document progress toward the site-specific goal. This data is analyzed at the end of the year and stored at each school site. Individual teachers must all contribute to their 301 Site Plan in order to participate and receive performance compensation. Although the 301 payout is linked to the results of the whole school, each teacher is fully engaged in the process. Specialist teachers submit statements detailing their contribution to the site 301 Plan.

Teachers Receiving Ratings of “1” on the Amphitheater Teacher Performance Evaluation System

Teachers who receive a rating of “1” on any indicator or whole domain of the ATPES will not receive performance pay for the period in which they were on a plan for improvement for the rating of “1”. Pay will be based on the percentage of days during the previous school year that the participant WAS NOT on a plan for improvement based on a "1" rating. If the participant was on a plan for improvement due to a rating of “1” for the entire previous school year, the participant will not be eligible for performance pay.

For the **2021-2022** District Plan, 33% of the available dollars for performance pay for a teacher will be based on the performance classification determined by the Amphitheater Teacher Performance Evaluation System (ATPES) as required by ARS 15-977. Since the full amount of the pay varies by year due to fluctuations in sales tax revenue, the actual dollar amount of this portion of the pay will vary from year to year. The classifications are and the percentage of the overall available dollars attainable that will make up the 33% are as follows:

Highly Effective Performance Classification: 100% of the available funds
Effective Performance Classification: 95% of the available funds
Developing Performance Classification: 85% of the available funds
Ineffective Performance Classification: \$0

Example:

Assuming a Total Amount Available Per Participant: \$2500

33% of the total amount: \$825
Highest amount available to a teacher designated as Highly Effective: \$2500
Highest amount available to a teacher designated as Effective: \$2458.75
Highest amount available to a teacher designated as Developing: \$2376.25
Highest amount available to at teacher designated as Ineffective: \$0

The results of each school plan will vary the amount of the remaining 67% of the total performance pay.

Notes about the 2020-21 School Year

Amphitheater Public Schools relied upon, and were responsive to, the recommendations and guidance of public health care officials regarding COVID-19 during the 2020-21 school year. As a result, the instructional mode changed throughout the year and is documented below.

August 10, 2020 — October 11, 2020.....	Remote by necessity
October 12, 2020 — January 3, 2021	Hybrid (in-person, 2 days a week)
January 4, 2021 — February 14, 2021	Remote by necessity
February 15, 2021 — March 21, 2021	Hybrid (in-person, 2 days a week)
March 22, 2021 — May 20, 2021.....	Normal (in-person, 5 days a week)

To summarize, during the 2020-21 school year:

- 14 weeks year were Hybrid
- 14 weeks were Remote by Necessity
- 9 weeks were “normal,” in-person instruction

The impacts of COVID-19 and school closures upon student performance during the 2020-21 school year have been widely reported in educational circles and impacted students both in and out of the state of Arizona and the United States. It is vital to keep this interpretive lens handy when viewing the data results below.

Summary of WACS Data for 2020-21

The following summaries and charts describe the results of the Waterford Assessment of Core Skills (WACS). Given to Kindergarten and First grade students, WACS is a browser-based standardized test designed to test student literacy skills within three to ten skill sets. WACS adapts to each student’s needs by giving easier or harder questions, depending on whether the student answers the previous question correctly. At the end of the assessment, WACS records the student’s test score and identifies the student as either “At/Above Expected” or “Below Expected,” based on the expectations of that assessment window.

The charts below provide the percent of students “At/Above Expected” for both Fall and Spring assessment windows, by grade level.

Kindergarten Results

- Overall, nearly 80% of Kindergarten students were “At/Above Expected” by Spring 2021; a decrease from the Fall 2020 performance (over 90%)
- From Fall to Spring, only two elementary schools showed an increase in the percent of Kindergarten students “At/Above Expected” – Donaldson (+3) and Walker (+1)
- Coronado, Keeling, and Rio Vista had the largest decreases in the percent of students who were “At/Above Expected” from Fall to Winter
- Seven (7) schools had over 80% of their students “At/Above Expected” by Spring. Unfortunately, this was a decrease from Fall, when eight (8) schools were above 90%
- The percent of students “At/Above Expected” by Spring 2021 ranged from 54% to 95%; in Fall 2020, the range was 74% to 100%

First Grade Results

- First grade WACS results are markedly worse than Kindergarten.
- Overall, 50% of First Grade students were “At/Above Expected” by Spring 2021; down 36 percentage points from Fall 2020
- From Fall to Spring, all schools showed a decrease in the percent of First Grade students “At/Above Expected”
 - Coronado had the largest decrease (-60 percentage points)
 - The smallest decrease was at Amphi Academy (-15 percentage points)
- Three (3) schools had above 70% of their students score in the “At/Above Expected” range in Spring 2021; down from 14 schools in Fall 2020
- Four (4) schools had fewer than 1 in 3 students score in the “At/Above Expected” range in Spring 2021 (Coronado, Keeling, Nash, Prince).
- The percent of students “At Benchmark” by Spring 2021 ranged from 17% to 80%; the Fall 2020 range was 71% to 97%

Summary of Longitudinal District-Level AzMERIT/AzM2 Data

The following summaries and charts describe the changes in proficiency rates on the Arizona state achievement test, the AzMERIT (called the AzM2 in 2021). The data represents a comparison between Spring 2019 and Spring 2021. (The AzMERIT/AzM2 was not administered during Spring 2020 due to the school closures as a result of the COVID-19 pandemic.)

The assessment is available both as computer-based and paper-based tests. The proficiency rates are the percentage of students with either “Proficient” or “Highly Proficient” scores for Spring 2019 and Spring 2021.

- Mathematics
 - 25% to 38% of tested students were proficient on the AzMERIT/AzM2 in 2021; a decrease from the 2019 range of 28% to 51%
 - Proficiency rates decreased in all grades, except Grade 8 (which stayed the same)
 - The largest decreases in proficiency rates over 2019 occurred in upper elementary and lower middle school grades (4, 5, and 6)
 - **Proficiency rates were below the Arizona state average in Grade 5 and Grade 6 only; all other grades were above the Arizona state average**

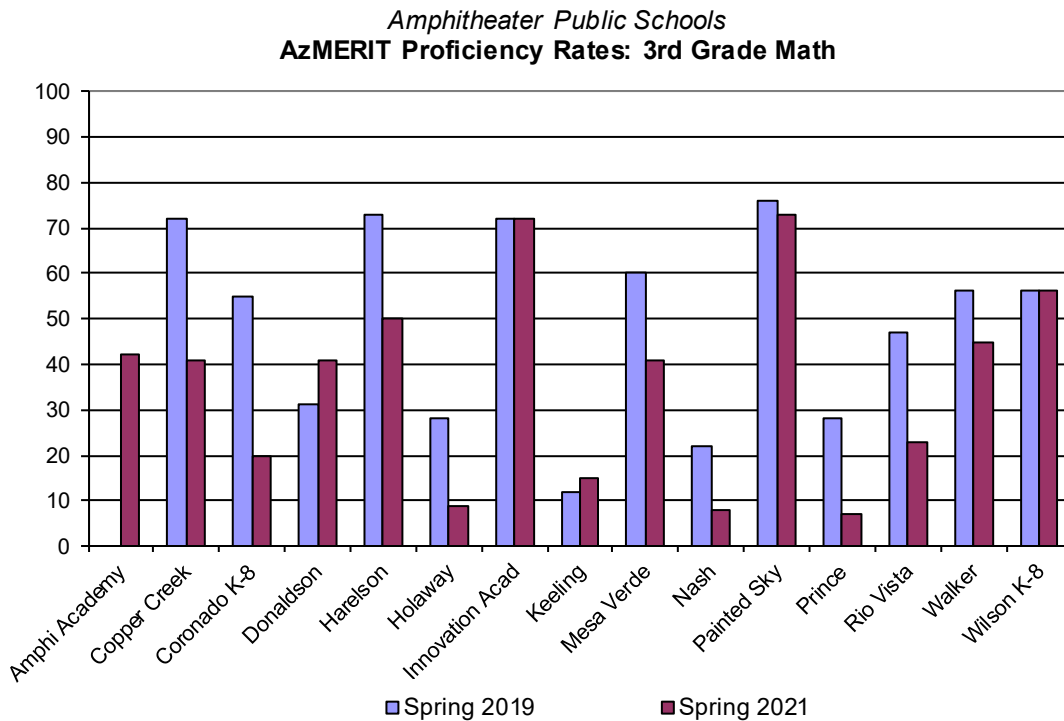

- English/ Language Arts
 - 33% to 47% of tested students were proficient on the AzMERIT/AzM2 in 2021; a decrease from the 2019 range of 38% to 57%
 - Proficiency rates decreased from 2019 for all grades
 - The largest decreases in proficiency rates over 2019 occurred in the elementary school grades
 - Proficiency rates were below the Arizona state average only in Grade 3; all other grades were above the Arizona state average**

Third Grade AzMERIT/AzM2 Results

- In Math:
 - Ten (10) schools showed a decrease in proficiency rates from 2019
 - Two schools showed an increase: Donaldson and Keeling
 - Two schools stayed the same: Innovation Academy and Wilson
 - The largest decreases in proficiency rates were:
 - Coronado (-35 percentage points)
 - Copper Creek (-31 percentage points)
 - The smallest decreases in proficiency rates were:
 - Painted Sky (-3 percentage points)
 - Walker (-11 percentage points)
 - Four (4) schools had proficiency rates above 50%
 - Three (3) schools had proficiency rates below 10%
 - 2021 Grade 3 Math proficiency rates ranged from 7% to 73%; the proficiency rate range for 2019 was 12% to 76%

- In English/ Language Arts:
 - Eleven (12) schools showed decreases in proficiency rates from 2019
 - Two schools increased: Donaldson and Painted Sky
 - The largest decreases in proficiency rates were:
 - Harelson (-37 percentage points)
 - Copper Creek (-38 percentage points)
 - The smallest decreases in proficiency rates were:
 - Rio Vista (-2 percentage points)
 - Innovation Academy (-6 percentage points)
 - Two schools – Innovation Academy and Painted Sky – had 2021 proficiency rates above 60%.
 - Four (4) schools had 2021 proficiency rates at or below 15%: Holaway, Keeling, Nash, and Prince
 - 2021 Grade 3 ELA proficiency rates ranged from 10% to 66%; the proficiency rate range for 2019 was 18% to 73%

Amphitheater Public Schools
AzMERIT Proficiency Rates: 3rd Grade ELA

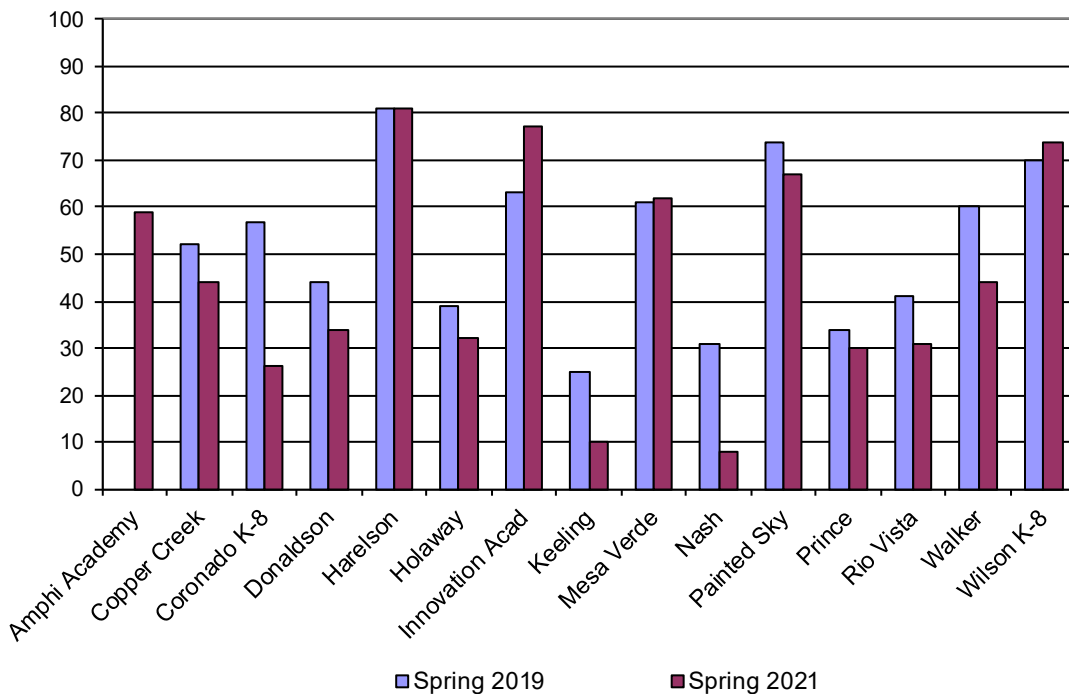

Fourth Grade AzMERIT/AzM2 Results:

- In Math:
 - All schools showed decreases in proficiency rates from 2019 levels – *except Harelson, which increased by 5 points*
 - The largest decreases in proficiency rates were:
 - Nash (-33 percentage points)
 - Walker (-32 percentage points)
 - The smallest decreases in proficiency rates were:
 - Keeling (-2 percentage points)
 - Innovation Academy (-2 percentage points)
 - Two schools – Painted Sky and Wilson – had 2021 proficiency rates above 70% in 2021
 - Two schools – Keeling and Nash – had 2021 proficiency rates of less than 10%
 - 2021 Grade 4 Math proficiency rates ranged from 5% to 66%; the proficiency rate range for 2019 was 7% to 82%

- In English/ Language Arts:
 - Four (4) schools increased or stayed the same in their proficiency rates from 2019: Innovation Academy (+14), Wilson (+4), Mesa Verde (+1), and Harelson (stayed the same)
 - The largest decreases in proficiency rate from 2019 were:
 - Coronado (-31 percentage points)
 - Nash (-23 percentage points)
 - The smallest decreases in proficiency rates from 2019 were:
 - Prince (-4 percentage points)
 - Holaway and Painted Sky (-7 percentage points)
 - Only one school – Harelson -- had a 201 proficiency rate above 80%
 - Two (2) schools had 2021 proficiency rated above 70%: Innovation Academy and Wilson
 - 2021 Grade 4 ELA proficiency rates ranged from 8% to 81%; the proficiency rate range for 2019 was 25% to 81%

Amphitheater Public Schools
AzMERIT Proficiency Rates: 4th Grade ELA

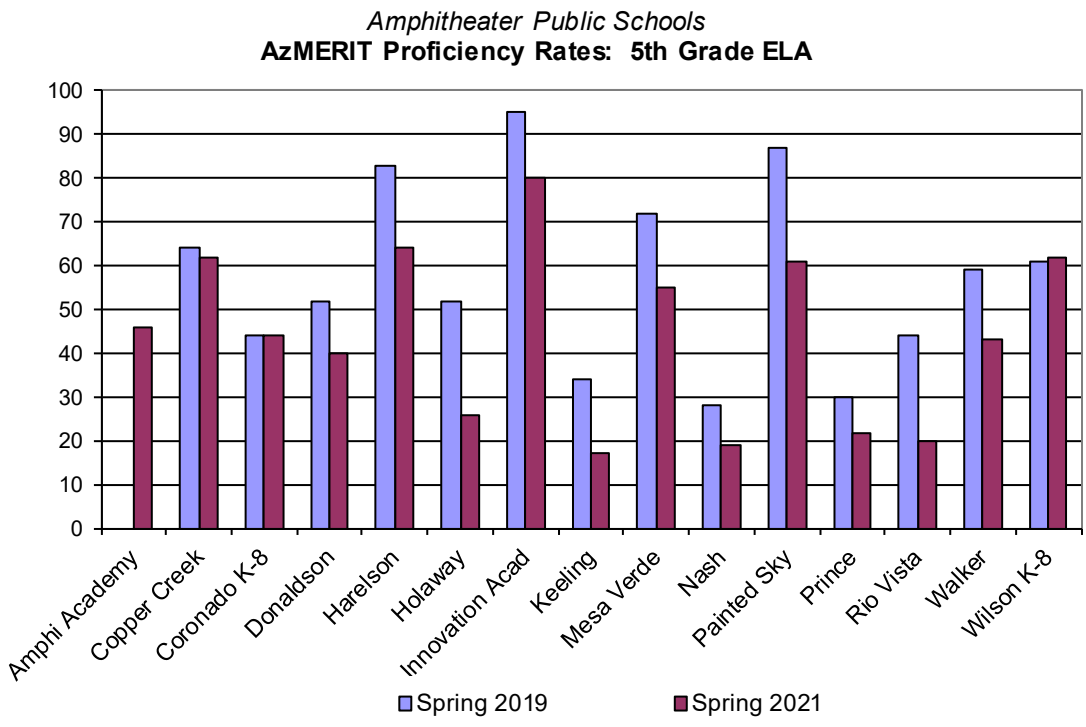

Fifth Grade AzMERIT/AzM2 Results:

- In Math:
 - All schools showed decreases in proficiency rates from 2019 levels
 - The largest decreases in proficiency rates were:
 - Holaway (-41 percentage points)
 - Donaldson and Nash (-25 percentage points)
 - The smallest decreases in proficiency rates were:
 - Wilson (-4 percentage points)
 - Copper Creek (-6 percentage points)
 - Two schools – Innovation Academy and Wilson -- had 2021 proficiency rates above 50%
 - One school – Keeling – had a 2021 proficiency rate of 0%
 - 2021 Grade 5 Math proficiency rates ranged from 0% to 56%; the proficiency rate range for 2019 was 18% to 79%

- In English/ Language Arts:
 - All but two schools showed decreases in proficiency rates from 2019 levels – only Wilson (+1) and Coronado (+0) improved or stayed the same
 - The largest decreases in proficiency rates were:
 - Holaway and Painted Sky (-26 percentage points)
 - The smallest decreases in proficiency rates were:
 - Copper Creek (-2 percentage points)
 - Prince (-8 percentage points)
 - One school – Innovation Academy – had a 2021 proficiency rate of 80%.
 - Four schools had 2021 proficiency rates above 60%: Copper Creek, Harelson, Painted Sky, and Wilson
 - 2021 Grade 5 ELA proficiency rates ranged from 17% to 80%; the proficiency rate range for 2019 was 28% to 95%

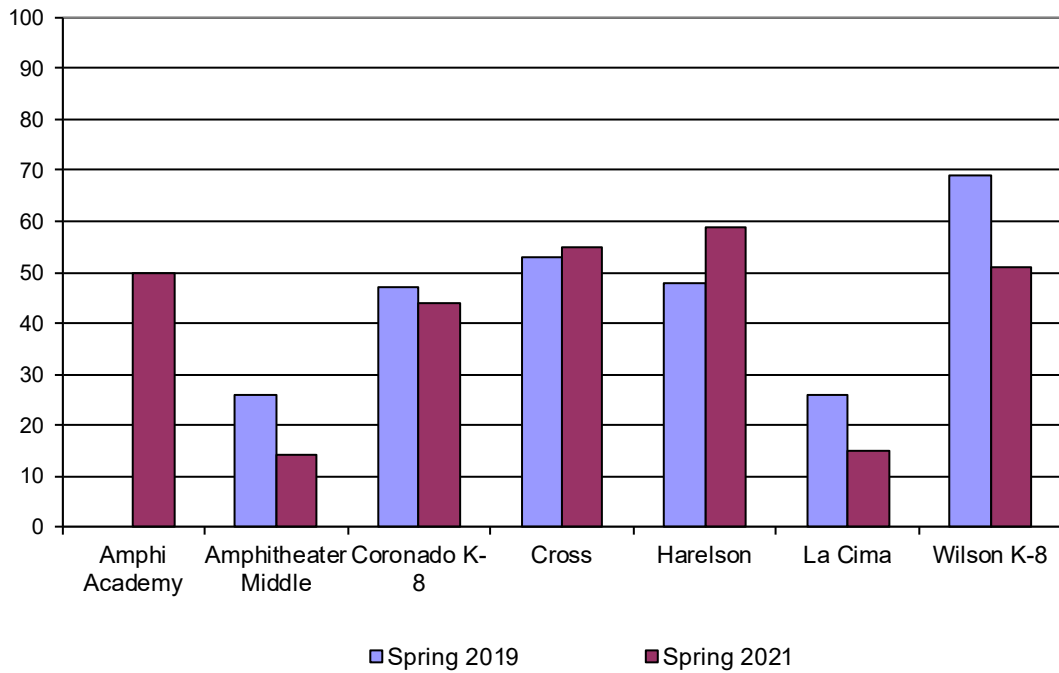

Sixth Grade AzMERIT/AzM2 Results:

- In Math:
 - All middle schools showed decreases in proficiency rates from 2019 levels
 - The largest decrease in proficiency rates was at:
 - Wilson (-25 percentage points)
 - The smallest decrease in proficiency rates was at:
 - Coronado (-2 percentage points)
 - One school – Harelson – had a 2021 proficiency rate above 40%
 - Two schools – Amphi Middle and La Cima – had 2021 proficiency rates below 10%
 - 2021 Grade 6 Math proficiency rates ranged from 3% to 43%; the proficiency rate range for 2019 was 12% to 60%

- In English/ Language Arts:
 - Two (2) middle schools showed increases in proficiency rates from 2019 levels – Cross and Harelson
 - The largest increase in proficiency rates was:
 - Wilson (-18 percentage points)
 - The smallest decrease in proficiency rates was:
 - Coronado (-3 percentage points)
 - 2021 Grade 6 ELA proficiency rates ranged from 14% to 59%; the proficiency rate range for 2019 was 26% to 69%

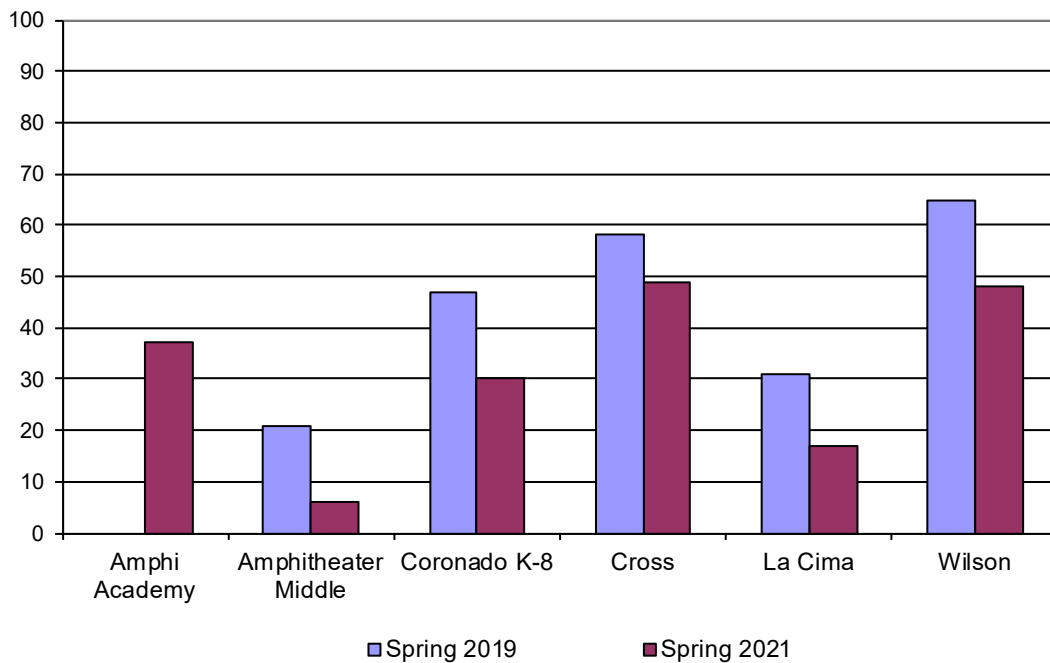

Amphitheater Public Schools
AzMERIT Proficiency Rates: 6th Grade ELA

Seventh Grade AzMERIT/AzM2 Results:

- In Math:
 - All middle schools showed decreases in proficiency rates from 2019 levels
 - The largest decreases in proficiency rates were:
 - Coronado and Wilson (-17 percentage points)
 - The smallest decrease in proficiency rate was:
 - Cross (-9 percentage points)
 - Two schools – Cross and Wilson – had 2021 proficiency rates near 50%
 - One school – Amphi Middle – had a 2021 proficiency rate of <20%
 - 2021 Grade 7 Math proficiency rates ranged from 6% to 49%; the proficiency rate range for 2019 was 21% to 65%

Amphitheater Public Schools
AzMERIT Proficiency Rates: 7th Grade Math

- In English/ Language Arts:
 - The only increase in proficiency rate from 2019 was at Wilson (+8 percentage points)
 - The largest decreases in proficiency rates from 2019 were:
 - La Cima (-13 percentage points)
 - Amphi Middle (-10 percentage points)
 - Two schools – Cross and Wilson – had 2021 proficiency rates above 60%
 - 2021 Grade 7 ELA proficiency rates ranged from 14% to 62%; the proficiency rate range for 2019 was 24% to 64%

Amphitheater Public Schools
AzMERIT Proficiency Rates: 7th Grade ELA

Eighth Grade AzMERIT/AzM2 Results:

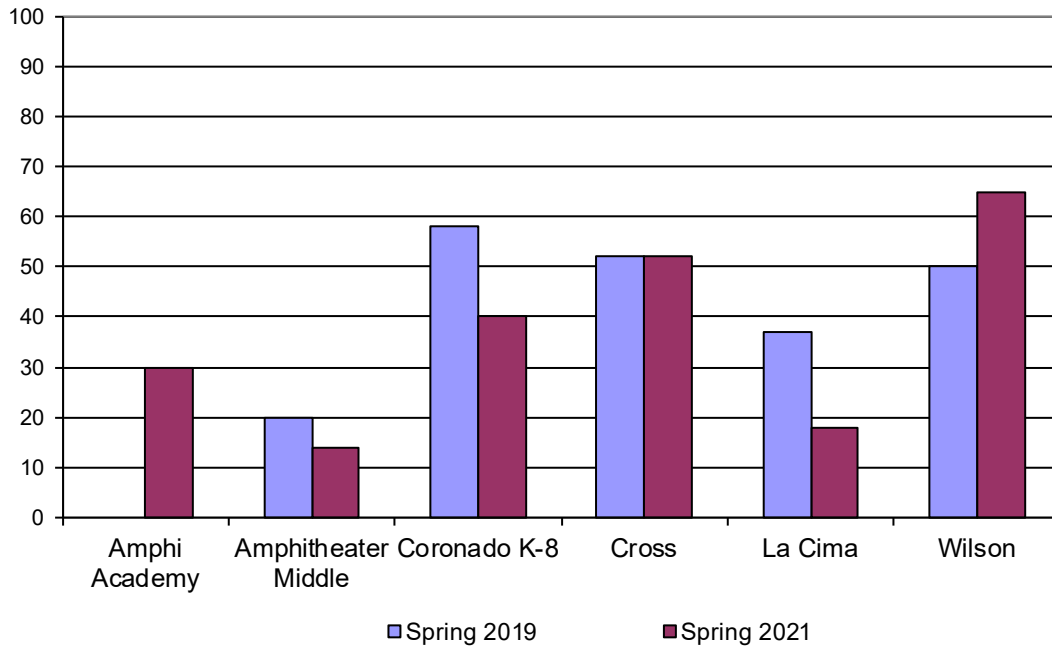

- In Math:
 - Two schools did not have a decrease in proficiency rate from 2019 – Cross increased (+7) and Wilson stayed the same
 - The largest decrease in proficiency rate was:
 - Coronado (-17 percentage points)
 - One school – Cross – had a 2021 proficiency rate above 40%
 - 2021 Grade 8 Math proficiency rates ranged from 4% to 41%; the proficiency rate range for 2019 was 7% to 51%

Amphitheater Public Schools
AzMERIT Proficiency Rates: 8th Grade Math

- In English/ Language Arts:
 - Two schools did not have a decrease in proficiency rate from 2019 – Wilson increased (+15) and Cross stayed the same
 - The largest decreases in proficiency rates were at:
 - La Cima (-19 percentage points)
 - Coronado (-18 percentage points)
 - Only one school – Wilson – had a 2021 proficiency rate above 60%
 - 2021 Grade 8 ELA proficiency rates ranged from 14% to 65%; the proficiency rate range for 2019 was 20% to 58%

Amphitheater Public Schools
AzMERIT Proficiency Rates: 8th Grade ELA

AzMERIT/AzM2 Results: High School Mathematics

In 2019, students finishing credits in certain high school-level math courses (e.g., Algebra I, Geometry, and Algebra II) were required to take the AzMERIT/AzM2 End-of-Course Mathematics test for that subject. The statewide high school Math assessment changed in Spring 2021 to be required of all Juniors, regardless of course(s) taken.

Aggregate totals were computed for Spring 2019 (by combining the number of proficient students, regardless of exam taken) and are provided here as a comparison for the Spring 2021 results.

- Ironwood Ridge showed a slight increase in proficiency rate from 2019 levels
- Amphitheater High showed a 17 percentage point *decrease*
- Only Canyon del Oro had a 2021 proficiency rate above 40%
- 2021 High School Math proficiency rates ranged from 7% to 44% for 2021; the 2019 range was 25% to 51%

AzMERIT/AzM2 Results: High School English/Language Arts

In 2019, students finishing credits in certain high school-level math courses (e.g., English 9, English 10, and English 11) were required to take the AzMERIT/AzM2 End-of-Course ELA test for that subject. The statewide high school ELA assessment changed in Spring 2021 to be required of all Juniors, regardless of course(s) taken.

Aggregate totals were computed for Spring 2019 (by combining the number of proficient students, regardless of exam taken) and are provided here as a comparison for the Spring 2021 results.

- Only Canyon del Oro had a slight increase in proficiency rate from 2019 levels
- Amphitheater High showed a 12 percentage point *decrease*
- In 2021, only Canyon del Oro was above a 40% proficiency rate
- 2021 High School ELA proficiency rates ranged from 13% to 41%; the 2019 range was 25% to 43%

Amphitheater Public Schools
AzMERIT Proficiency Rates: High School ELA
