

Special to the Tribune:

Browning, Nov.      The first night of the Browning High School Carnival brought out a big crowd and a good financial return to the Students' Association. The 12 booths which included the fish pond, the minstrels, the country store, the hot-dog stand and the other booths were crowded. Confetti filled the air and Art Dahl's Orchestra played for a dance in the new gymnasium. The place was busier than a five-ring circus with everything going at the same time. Youngsters were under foot everywhere with their squawkers and horns deafening the crowd while they roamed from one booth to another and part of the crowd danced in the new gymnasium.

There were many visitors from Glacier Park and some from Cut Bank with others attending from every part of the County.
