The statutory objectives of such a program are to “improve intergroup relations on and beyond the school campus, defusing intergroup tensions, and promoting peaceful resolution of conflict.” A board that adopts a policy to incorporate activities to address anti-bias education and intergroup conflict resolution shall make certain information available to the public and include it on the district’s website, if any, and make it available in the district’s offices upon request. See [sample exhibit 2:250-E2, Immediately Available District Public Records and Web-Posted Reports and Records](#). Districts may also include the information in a student handbook and in district newsletters. The Ill.
