

Series 4000: District Employment

4200 Employee Conduct and Ethics

4211 Alcohol and Controlled Substances for Transportation Employees Subject to the Omnibus Transportation Employee Testing Act

General

Employees subject to the Omnibus Transportation Employee Testing Act, as amended (OTETA), must be mentally and physically alert at all times while on duty. This Policy establishes an alcohol and controlled substances testing program for such District employees (both regular and substitute) who perform safety-sensitive functions as mandated by OTETA.

The Superintendent or designee will comply with OTETA and implement an alcohol and controlled substances testing program consistent with OTETA.

A. Definitions

1. "Controlled Substance" means any drug or substance, the possession or use of which is prohibited under federal or state law, or any drug that is being used illegally (e.g., a prescription drug that was not legally obtained or not used for its intended purposes or in its prescribed quantity). For purposes of this Policy, marihuana is a Controlled Substance.
2. "Covered Employee" means an employee (including a substitute) who operates or maintains a commercial motor vehicle in interstate or intrastate commerce and is subject to the commercial driver's license requirements.
3. "Illegal Drug" means any drug or substance, including marihuana, the possession or use of which is unlawful pursuant to federal or state law or local ordinance.
4. "Safety-Sensitive Function" means all tasks associated with the operation or maintenance of District vehicles.
5. "While on Duty" means the time from which the Covered Employee begins to work or is required to be in readiness for work until the time the Covered Employee is relieved from work and all responsibility for performing work.

B. Standards of Conduct

Compliance with conduct standards set forth in Policy 4210, as well as with this Policy's testing procedures, is mandatory. Disciplinary sanctions, including discharge, may be imposed on a Covered Employee for violating this Policy.

Failure to comply with testing procedures by a Covered Employee includes:

1. refusing to take a test, failing to appear to take a test, failing to provide a specimen or a sufficient specimen (absent adequate medical justification),

- failure to remain at the testing site until completion of the testing process, or failure to sign a test consent form;
2. failure to cooperate in the testing process;
 3. in the case of direct observation or monitored collection of a Controlled Substances test, failure to permit observation or monitoring of the Covered Employee's provision of a specimen; or
 4. engaging in evasive testing actions intended to compromise the validity of the test results, including switching, substituting, adulterating, or otherwise compromising test samples.

C. Authorized Use of Prescription and Over-the-Counter Medication

A Covered Employee using a prescription that has been prescribed for the Covered Employee by a health care provider or an over-the-counter medication is responsible for being aware of any potential effects the medication may have on his/her ability to safely perform his/her duties.

D. Consequences for Violating Standards of Conduct

After determining that a Covered Employee violated 1 or more of the conduct standards for alcohol or Controlled Substances, the Covered Employee will be:

1. immediately removed from any duty which involves the performance of a Safety-Sensitive Function; and
2. subject to discipline, including discharge.

E. Voluntary Requests for Alcohol or Substance Abuse Evaluation, Counseling, or Treatment

A Covered Employee who voluntarily requests to participate in alcohol or substance abuse evaluation, counseling, or treatment through the District before being tested or being requested to be tested will be referred to a substance abuse professional to determine what assistance, if any, the Covered Employee needs in resolving problems associated with alcohol misuse or Controlled Substance use.

A request for evaluation, counseling, or treatment following the performance of a Safety-Sensitive Function will not preclude discipline for substantiated misconduct or other inappropriate behavior. The District will not impose a disciplinary sanction under this Policy solely because a Covered Employee has made a voluntary admission of alcohol or Controlled Substance abuse, consistent with the Policy.

The District will allow a Covered Employee who has self-identified as an abuser of alcohol or another substance sufficient opportunity to seek evaluation and treatment.

Where a Covered Employee has self-identified, the District will require that employee to undergo return-to-duty testing for alcohol and Controlled Substances and may also require follow-up testing.

The District is not required to pay for voluntary evaluation, counseling, or treatment; or to pay an employee for time spent in a voluntary evaluation, counseling, or treatment program.

F. Testing for Alcohol or Controlled Substances

Alcohol or Controlled Substances testing will be administered as follows:

1. Pre-Employment/Pre-Duty Testing

Before employment or the first time a Covered Employee performs a Safety-Sensitive Function, he/she must receive from a medical review officer a test result verified as negative. If a pre-employment test is positive or the pre-employment alcohol test result indicates a blood alcohol concentration of 0.02 or greater, the applicant will not be hired.

2. Post-Accident Testing

As soon as practicable following an accident, but no later than 8 hours (alcohol test) or 32 hours (controlled substances test), testing will be conducted on each Covered Employee involved in the accident if the accident resulted in loss of human life or a citation was issued for a moving traffic violation arising from the accident. A Covered Employee who is subject to post-accident testing must remain readily available for testing or, if not available, will be deemed to have refused to submit to testing.

3. Return-to-Duty Testing

A Covered Employee may be required to undergo testing with a verified negative result before returning to duty in compliance with OTETA.

4. Follow-Up Testing

A Covered Employee identified by a substance abuse professional as needing assistance associated with alcohol misuse or use of a controlled substance, and who has returned to duty involving the performance of a safety-sensitive function, is subject to unannounced testing (consisting of at least 6 tests) over the first 12 months after the Covered Employee's return to duty as directed by a substance abuse professional.

5. Reasonable Suspicion Testing

A Covered Employee will undergo testing as a result of reasonable suspicion that the Covered Employee has violated the conduct standards for alcohol or Controlled Substances based on specific, contemporaneous, articulable observations about the appearance, behavior, speech, or body odors of the

Covered Employee while, just before, or just after performing a Safety-Sensitive Function.

The supervisor or person who made the reasonable suspicion determination shall not conduct the test on the Covered Employee.

A written record of the observations leading to a reasonable suspicion test must be made and signed by the supervisor or person who made the observations. This record must be made within 24 hours after the observed behavior or before the results of the test are released, whichever is earlier.

6. Random Testing

Each year, random testing will be used at the rate of 20% (alcohol) and 50% (controlled substances) of the average number of active Covered Employees subject to testing.

G. Recordkeeping

The District will maintain a Covered Employee's alcohol or controlled substance testing records and results separate from the employee's personnel file in a secure location with restricted access. Record retention will be for periods and in a manner required by applicable federal regulation.

H. Confidentiality

Except as expressly authorized by law or regulation, neither the District nor any person or agency contracting with the District for alcohol or controlled substance testing services will release information about a Covered Employee's test results without the Covered Employee's written consent.

I. Dissemination

The Superintendent or designee is responsible for distributing this Policy and other educational materials pertinent to federal regulations to all Covered Employees. These materials will include:

1. the categories and classifications of District employees who are Covered Employees subject to this Policy;
2. the identity of those persons designated by the District to answer questions about this Policy and applicable regulations;
3. information about the Safety-Sensitive Functions performed by Covered Employees to make clear what period of the work day the employee must be in compliance with this Policy and applicable regulations;
4. specific information about conduct prohibited by the Policy and applicable regulations;

5. identification of the circumstances under which a Covered Employee will be tested for alcohol and/or Controlled Substances;
6. identification of the procedures that will be used to test for alcohol and Controlled Substances, to protect a Covered Employee, to safeguard the validity of test results, and to ensure that those results are attributed to the correct employee, including post-accident information and procedures;
7. a requirement that Covered Employees submit to alcohol and Controlled Substances testing, together with an explanation of what constitutes a refusal to submit to alcohol or Controlled Substances testing and the attendant consequences to the Covered Employee;
8. identification of the consequences for a Covered Employee's violation of this Policy, including removal from performing safety sensitive functions;
9. identification of the consequences for a Covered Employee found to have an alcohol concentration of .02 or greater but less than .04;
10. information about the effects of alcohol and Controlled Substances use on a person's health, including signs and symptoms of alcohol or Controlled Substances abuse and available methods of intervention;
11. the requirement that identified personal information collected and maintained by the District to implement this Policy and applicable regulations will be reported as required by law; and
12. information about additional District Policies (including Policy 4210) on the possession and use of alcohol and Controlled Substances, including the consequences for violation of those Policies. The information will indicate that additional Policies are based upon the District's authority independent of federal regulations requiring alcohol and Controlled Substances testing of Covered Employees.

The Superintendent or designee shall ensure that each Covered Employee signs a statement certifying receipt of this Policy and the above materials.
