

NOVA CLASSICAL ACADEMY
MANUAL OF POLICIES APPROVED BY THE BOARD OF DIRECTORS

POLICY NP-500:

**PERSONAL ELECTRONIC DEVICE – SAFE AND ACCEPTABLE
TECHNOLOGY USE POLICY**

I. PURPOSE

The world in which we live is increasing more driven and saturated with technology. Students have access to numerous personal electronic devices. Guiding the appropriate usage of these devices during the school day, on school property and/or involving Nova students or personnel will only strengthen the positive, educational atmosphere that Nova Classical Academy seeks to foster. This policy establishes the parameters for possessing personal electronic devices and establishes limits on those devices capable of receiving or transmitting information or images. The purpose of the technology policy is twofold. First, it is functional: to minimize distraction and focus students' attention on their work at school rather than their personal technological devices. Secondly, it is to ensure that technology is used in a virtuous manner providing for the physical and emotional security of all. Technology use is a privilege, not a right, and it is to be treated as such.

II. GENERAL STATEMENT OF POLICY
